Picturing Christian Witness Stanley H. Skreslet, 2006-05-03 Christian mission in previous centuries often drew on images of imperial expansion and war. While few today would describe the gospel task in such imperialistic terms, have we developed appropriate alternate images to associate with the good news of Jesus Christ? In *Picturing Christian Witness*, missiologist Stanley Skreslet searches for new, more holistic images of mission from Scripture. Undertaking a novel exegetical study of mission in the New Testament, he highlights five actions that depict the witness of Jesus' first followers: announcing good news, sharing Christ with friends, interpreting the gospel, shepherding, and building/planting. After carefully examining key biblical passages, Skreslet draws out the implications of these five images for the theology of mission and lets each image take shape visually through an array of Western and non-Western art. *Picturing Christian Witness* will provoke readers to imagine what mission will look like when actively embodied by contemporary disciples of Jesus.

*The Handbook of Photography Studies* Gil Pasternak, 2020-08-13 *The Handbook of Photography Studies* is a state-of-the-art overview of the field of photography studies, examining its thematic interests, dynamic research methodologies, and multiple scholarly directions. Each part begins with an introductory text giving historical contextualization and scholarly orientation. Featuring the work of international experts and offering diverse examples, insights, and discussions of the field's rich historiography, the Handbook provides critical guidance to the most recent research in photography studies. This pioneering and comprehensive volume presents a systematic synopsis of the subject that will be an invaluable resource for photography researchers and students from all disciplinary backgrounds in the arts, humanities, and social sciences.
