Dad Was A Carpenter Blueprints For A Meaningful Life:

Dad Was a Carpenter Kenny Kemp,1999-05 On the day before Christmas Kenny Kemp raised his father s heavy garage door and began going through 40 years of accumulated materials and belongings It was four months after his father s death from Lou Gehrig s disease a painful troubled time for which there seemed to be no answers As Kenny sorted and cleaned a greater understanding of his loss slowly came to him Remembrances of his father s love strength and quiet courage emerged from carefully preserved mayonnaise jars full of straightened nails overstuffed weathered work bench drawers time tested tools and a venerable 30 year old piece of plywood Precious relics each telling in silent eloquence stories about the greatness of a man who had the gift to see something new and useful inside something old and worn Beautifully written these poignant stories provide a unique perspective on life s fleeting moments and disregarded details Each chapter begins with one of his father s truisms which taken together provide the blueprints for a meaningful life *Dad Was a Carpenter* is a remarkable book that asks us to think about all of our relationships in a different way Fathers and children of all ages everywhere will cherish this gift for years to come

Houses from Books Daniel D. Reiff,2010-11-01 Many homes across America have designs based on plans taken from pattern books or mail order catalogs In *Houses from Books* Daniel D Reiff traces the history of published plans and offers the first comprehensive survey of their influence on the structure and the style of American houses from 1738 to 1950 *Houses from Books* shows that architectural publications from Palladio s *I Quattro Libri* to Aladdin s *Ready Cut Homes* played a decisive role in every aspect of American domestic building Reiff discusses the people and the firms who produced the books as well as the ways in which builders and architects adapted the designs in communities throughout the country His book also offers a wide ranging analysis of the economic and social conditions shaping American building practices As

architectural publication developed and grew more sophisticated it played an increasingly prominent part in the design and the construction of domestic buildings In villages and small towns which often did not have professional architects the publications became basic resources for carpenters and builders at all levels of expertise Through the use of published designs they were able to choose among a variety of plans styles and individual motifs and engage in a fruitful dialogue with past and present architects Houses from Books reconstructs this dialogue by examining the links between the published designs and the houses themselves Reiff s book will be indispensable to architectural historians architects preservationists and regional historians Realtors and homeowners will also find it of great interest A catalog at the end of the book can function as a guide for those attempting to locate a model and a date for a particular design Houses from Books contains a wealth of photographs many by the author that enhance its importance as a history and guide
