also need to learn what spelling pattern is used for a specific word Learning to spell is both conceptual and associative children must learn concepts about language structure at several levels and remember specific letter sequences Teachers need to help students recognize spelling patterns In addition when they teach spelling patterns they need to use everyday words The puzzles in this book teach and reinforce spelling patterns using everyday words Middle Grade Spelling Although less is known about the nature and the sequence of stages in spelling development in the middle grades students do continue to develop their concepts of orthography and their ability to associate spelling patterns with speech patterns As they learn more words and store more examples of common spelling patterns in their memory they rely increasingly on analogy strategies to spell They learn new words as they are associated in memory with words that share similar patterns Rather than relegate spelling to a back burner during the middle school years spelling can and should be an integral part of language instruction Instruction in spelling helps students master the basics of language especially students who may struggle with reading Teaching spelling enables a struggling student to use different senses Thus it helps the student learn and master the relationship between the sounds and symbols of our language the backbone of reading It is not only the struggling student who benefits from learning spelling skills but also the proficient students who will be able to more deeply understand the patterns of our complex language and become master communicators
