Forestry Commission, 1969      **Rock Climbing in Britain** Jeremiah Ernest Bamford Wright, 1958      **Mountaineering and Its Literature** Jill Neate, 1980 Few areas of human endeavor and adventure have such an extensive literature as does mountaineering perhaps because the activity itself is so diverse ranging from gymnastic feats of modern rock climbers through alpinism to Himalayan conquests and exploration Even before Edward Whymper climbed the Matterhorn in 1865 and wrote the celebrated *Scrambles in the Alps* mountaineers had felt compelled to record their adventures and their sense of wonder at the mountain world In recent years the literature has expanded considerably to

account for the phenomenal growth of mountain activities Expeditions are now commonplace and the great mountain ranges are no longer beyond the reach of the average climber This extensive bibliography describes works on mountaineering published in the English language since 1744 But it s far more than a dry catalog of books as author Neate gives notes which help the reader assess as book s reliability and significance An indispensable reference for the active climber would be explorer and bibliophile alike
