was I had no plan no idea what I wanted to do for work and I wasn't the hardest worker For some reason I was not super successful right out of college I ended up working for my dad part time in real estate which became full time and then an awesome business I struggled in the beginning of my career not because I was in the wrong field or I was not knowledgeable but because I had a bad attitude and did not know how to be successful I thought I was smart I was educated I thought I could be successful but there is much more to success than intelligence and education Hard work is also a very important part of success and although I could have definitely worked a little harder in school and at work that wasn't the missing piece to the puzzle Not only did I struggle after college I became very frustrated with where my career was going I lost some of my dreams I started to tell myself I didn't want fancy things or nice cars because I started to believe I would never be able to get those things If I convinced myself I didn't want those things maybe I would be less disappointed A funny thing happened a few years into my real estate career I got fed up with how things were going and I made some drastic changes At first the changes resulted in me making much less money and being way more stressed However I accidentally started to create some goals because I got fed up with how things were going Then I started to listen to other people and not rely on just myself I got outside my comfort zone and did things that scared me and were very hard to do My life started to turn around and success followed very quickly I went from having a goal to make 100 000 a year to a goal to make 1 000 000 a year in a few years I found success in multiple businesses I built a team that reduced my stress and time I worked I became happier I bought an awesome house had an awesome family and even bought a Lamborghini a life long dream The more successful I became the more I realized that success was not about intelligence hard work or even education It was about belief planning confidence and structure In this book I will tell you a little more about my story How I made 28 000 in 2006 but now have 16 rentals flip 10 to 15 houses a year run a real estate team of ten and work less than 40 hours a week I could retire at the age of 37 but I have big goals and big aspirations plus I love what I do

Change Your Thoughts, Alter Your Attitude & Dictate Your Progress Ekene A. Egbo, 2016-11-03 Behavior is a by product of attitude That is what a man preconceives is what he let out in form of behavior Attitude is a mental disposition towards one's self another person a thing i.e. it is the feeling given to any stimulus around us No matter what the opportunities available to you if you don't greet such opportunities with positive attitude you are doomed to fail Attitude is the offspring of nature nurture and environment Nature refers to all genetically inherited traits nurture talks about the accumulation of life and living experiences customs tradition or culture over time while environment is centered on our present surroundings William James an American Psychologist posited that man alone of all creatures of the earth can change his own pattern Man alone is the architect of his destiny The greatest discovery in our generation is that human beings by changing the inner attitudes of their minds can change the outer aspects of their lives Bewilderedly some people cannot live above poverty because they've already resigned to fate believing that they are destined to be poor while they assume that those who are rich were designed and predestined

to be rich More baffling is the notion that they are helpless and cannot do anything to change and improve their circumstances This set of people who adopts this kind of mindset attitude and or approach to life are not always ready to take risk nor make efforts to upturn their circumstance They are usually laidback pessimistic passive and with grave low self esteem often characterized with battered ego Attitude dictates and controls our behavior either consciously or sub consciously Whether you are a business person a teacher a student a parent or whatever you are doing your level of success will increase tremendously if you place high value on good thinking James Allen maintained that man is buffeted by circumstances so long as he believe himself to be the creature of outside conditions but when he realizes he is a creative power and that he may command the hidden soil and seeds of his being out of which circumstances grow he then becomes the rightful master of himself as a man thinks so he is Your thought empowers you for achievement Emerson affirmed Thought rule the world you can't gravitate above your thoughts Your thoughts are propelling forces which create circumstances conducive to their own realization They are invisible but cannot remain hidden for long because you will eventually act on them In fact they are irresistible when they call for manifestation Emmerson further noted that thoughts converts itself into power Your life and level of achievement today reflects the kind of thoughts you secretly conceived harbored encouraged and projected in the time past It's impossible for you to manifest contrary to your thoughts You are exactly a product of your thought Praise George noted many people allow their thoughts to be shaped by social consciousness that is the beliefs held by a particular society They refuse to question limiting beliefs and move along with the mindless crowd going nowhere people fail to realize the utmost truth that they themselves are makers of themselves by the virtue of the thought they choose to encourage In truth victory and defeat originate from the mind When all your thoughts are centered on victory in all your challenges you will always emerge a victor conversely when your thoughts are debasing or centered on negation Every thought seed sown or allowed to fall into the mind and to take root there produces its own blossoming sooner or later into act and bearing its own fruitage of opportunity and circumstance James Allen Good thoughts bear good fruits bad thoughts bad fruits Change your thoughts alter your attitude dictate your life outcomes *The Power of Attitude in Success* Pradip N. Das, 2020-12-05 A Powerful Guide to Improve Attitude Do you often find yourself upset and miss out on great opportunities despite having all the necessary knowledge and skills Do you often wonder why all the successful people beam with self confidence grow faster and win accolades while others find it difficult Imagine how would your life change if you know how attitude matters in success and learn building attitude What if you could learn the various methods of building attitude ownership thinking creating new habits and perform at the highest levels and feel happy What if you could harness your full potential reach your goals faster learn effectively to become successful and live an amazing wonderful life You can learn the relationship of Success with Commitment Sacrifices Creating Habits and Gratitude and make your life blissful purposeful and happy All you need to do is develop self belief create powerful habits change your

actually understood the concepts just as well as I did once I finished reading it to him and immediately started putting the concepts into practice This is the best self help positive thinking book I have ever read which is why I took the time to write this description as a reader who has been looking for something like this for a long time I think you will agree that this book will definitely change your attitude and change your mind and will set you on a road to success through Positive Thinking Give it a read and let me know what you think in the comments below I just want to say if this doesn't help you to see the potential within your own mind nothing will Good reading

The Mentality Changer Kyle Greene, 2015-10-18 This book was written with the hopes of helping you to change your mindset change how you think about you your success and your failures I have seen too often people give up on their dreams when they're so close to making them a reality or people that blame their failures on others but lay claim to everything right when it comes to their successes I know people who only see the bad in any situation never even making an attempt to find the silver lining I want people to begin to see the lesson in a lost hope while facing despair and love when faced with hate If I can help to change just one person then maybe that one person can then go on to change the world Are you that one person that is ready to CHANGE your MINDSET so that you can get out and change the WORLD TheMentalityChanger
