## **Cyberethics With Infotrac:**

Ethics and Librarianship Robert Hauptman, 2010-06-28 Over the last few decades there has been a dramatic increase in the number of papers and journal articles dealing with various ethical issues in librarianship but only a few books. Information workers find themselves rendering new services and providing new kinds of information without much recourse to universally accepted ethical standards. This work is an up to date and comprehensive overview of the subject. It promotes the view that as information managers librarians must join with other professionals to renew a commitment to and interest in ethics. The book deals with such topics as ethics in general, the control of ideas, building collections, acquisitions and cataloging, access services, the reference function, special libraries, research and publication, and intellectual property and copyright. A chapter discusses why ethics matters.

*Library Services to the Incarcerated* Sheila Clark, Erica MacCreaigh, 2006-08-30 Learn how to provide exemplary library service to individuals in prison or jail by applying the public library model when working with inmate populations. These authors, a jail librarian and an outreach librarian, offer a wealth of insights and ideas, answering questions about facilities and equipment, collection development, services and programming, computers and the Internet, managing human resources including volunteers and inmate workers, budgeting and funding, and advocacy within the facility and in the community. The approach is practical and down to earth with numerous examples and anecdotes to illustrate concepts. More than 2 million adults are serving time in correctional facilities and hundreds of thousands of youth are in juvenile detention centers. There are more than 1,300 prisons and jails in the United States and about a third as many juvenile detention centers. Inmates as much or more than the general population need information and library services. They represent one of the most challenging and most grateful populations you as a librarian can work with. This book is intended to aid librarians whose responsibilities include serving the incarcerated, either as full time jail or prison librarians or as public librarians who provide outreach services to correctional facilities. It is also of interest to library school students considering careers in prison librarianship. The authors, a jail librarian and an outreach librarian, show how you can apply the public library model to inmate populations and provide exemplary library service. They offer a wealth of ideas, answering questions about facilities and equipment, collection development, services and programming, computers and the Internet, managing human resources including volunteers and inmate workers, budgeting and funding, and advocacy within the facility and in the community. The approach is practical and down to earth with numerous examples and anecdotes to illustrate ideas.
