Cyborg Ethnography:

Cyborgs@Cyberspace? David Hakken, 2002-06-01 Arguing that humans have always been technological as well as cultural beings David Hakken calls for a fundamental rethinking of the traditional separation of anthropology and technical studies Drawing on three decades of research on contemporary technological societies this book outlines a fresh way of thinking about technology and offers an ethical and political response to the challenge of truly living as cyborgs in the age of cyberspace

Posthumanism Fouad Sabry, 2023-07-02 What Is Posthumanism The concept of posthumanism also spelled post humanism is a response to the anthropocentrism that is prevalent in 21st century thought It can be found in continental philosophy and critical theory It incorporates a wide range of subfields including the following

Antihumanism is a school of thought that takes a scathing stance against traditional humanism and the established canon of thought concerning the human condition life and agency Cultural posthumanism is a subfield of cultural theory that is critical of the foundational

assumptions of humanism and the legacy that it has left behind It investigates and questions the historical notions of human and human nature frequently challenging typical notions of human subjectivity and embodiment and it seeks to move beyond archaic concepts of human nature in order to develop ones that are constantly adapting to contemporary technological and scientific knowledge Philosophical posthumanism is a philosophical path that draws on cultural posthumanism The philosophical strand investigates the ethical consequences of broadening the circle of moral concern and extending subjectivities beyond the human species Philosophical posthumanism is a philosophical direction that draws on cultural posthumanism The deconstruction of the human condition as carried out by critical thinkers is referred to as the posthuman condition Posthuman transhumanism is an ideology and movement that aspires to develop and make available technology that permit immortality and vastly enhance human intellectual physical and psychological capacities in order to attain a posthuman future This ideology and movement draws from posthumanist philosophy AI takeover refers to a sub genre of transhumanism in which the goal is not to augment humans but rather to eventually replace them with artificial intelligences As a result of a technological singularity some philosophers and theorists including Nick Land advocate for the position that human beings ought to welcome and be at peace with their own impending extinction as a natural consequence of the phenomenon This is connected to the philosophy known as cosmism which advocates for the development of powerful artificial intelligence even if it would result in the extinction of humanity This is because in their opinion it would be a cosmic tragedy if humanity freezes evolution at the puny human level which describes the current state of human evolution Voluntary Human Extinction is an ideology that advocates for a posthuman future which in this context refers to a future devoid of human beings

The Cyborg Handbook Chris Hables Gray, Steven Mentor, Heidi Figueroa-Sarriera, 1995 On cybernetic organisms cyborgs Human No More Neil L. Whitehead, Michael Wesch, 2012-08-12 Turning an anthropological eye toward cyberspace Human No More explores how conditions of the online world shape identity place culture and death within virtual communities Online worlds have recently thrown into question the traditional anthropological conception of place based ethnography They break definitions blur distinctions and force us to rethink the notion of the subject Human No More asks how digital cultures can be integrated and how the ethnography of both the

unhuman and the digital could lead to possible reconfiguring the notion of the human This provocative and groundbreaking work challenges fundamental assumptions about the entire field of anthropology Cross disciplinary research from well respected contributors makes this volume vital to the understanding of contemporary human interaction It will be of interest not only to anthropologists but also to students and scholars of media communication popular culture identity and technology

Thweatt-Bates,2016-05-13 What is the posthuman Is becoming posthuman inevitable something which will happen to us or something we will do to ourselves Why do some long for it while others fearfully reject it These questions underscore the fact that the posthuman is a name for the unknown future and therefore not a single idea but a jumble of competing visions some of which may be exciting some of which may be frightening and which is which depends on who you are and what you desire to be This book aims to clarify current theological and philosophical dialogue on the posthuman by arguing that theologians must pay attention to which form of the posthuman they are engaging and to demonstrate that a posthuman theology is not only possible but desirable when the vision of the posthuman is one which coincides with a theological vision of the human

The Alternative Introduction to Biological

Anthropology Jonathan Marks,2011 In The Alternative Introduction to Biological Anthropology author Jon Marks presents

an innovative framework for thinking about the major issues in the field with fourteen original essays designed to correlate to the core chapters in standard textbooks Each chapter draws on and complements but does not reconstitute except for the sake of clarity the major data and ideas presented in standard texts Marks explores such topics as how we make sense of data about our origins where our modern ideas comes from our inability to separate natural facts from cultural facts and values as we try to understand ourselves and the social and political aspects of science as a culturally situated mental activity Features Offers clear intelligent and completely original discussions injected with a sense of humor that will keep students reading Addresses core topics in a way that does not simply mirror what is in the basic textbooks but offers a new spin thereby fostering critical thinking Complements traditional textbooks in biological anthropology and explores connections between biological and general anthropology Provides expert integration of topics coherent narratives and salient examples Utilizes theme statements at the start of each chapter that introduce the breadth of information covered and engage students in the material
