Mysticism and Philosophy in al-Andalus Michael Ebstein, 2013-11-21 Muslim Spain gave rise to two unusual figures in the mystical tradition of Islam Ibn Masarra 269 883 319 931 and Ibn al Arab 560

1165 638 1240 Representing respectively the beginning and the pinnacle of Islamic mysticism in al Andalus Ibn Masarra and Ibn al Arab embody in their writings a type of mystical discourse which is quite different from the Sufi discourse that evolved in the Islamic east during the 9th 12th centuries In *Mysticism and Philosophy in al Andalus* Michael Ebstein points to the Ism l tradition as one possible source which helped shape the distinct intellectual world from which both Ibn Masarra and Ibn al Arab derived By analyzing their writings and the works of various Ism l authors Michael Ebstein unearths the many links that connect the thought of Ibn Masarra and Ibn al Arab to the Ism l tradition

Early Philosophical Shiism Paul E. Walker, 1993-07-30 The first book length study of a leading tenth century Ismaili theoretician Abu Ya qub al Sijistani

Extremist Shiites Matti Moosa, 1988-02-01 Little is known in the West about the division of the Islamic world into Shiites and Sunnites and even less about the stratification of these two groups with most of the attention going to the Sunnites Moosa's comprehensive study of the origins and cultural aspects of the different extremist or Ghulat Shiite sects in the Middle East is a ground breaking work These sects whose extremism is essentially religious are generally a peaceful people and except for the Nusayris of Syria are not political activists

All the World an Icon Tom Cheetham, 2012-07-03 *All the World an Icon* is the fourth book in an informal quartet of works by Tom Cheetham on the spirituality of Henry Corbin a major twentieth century scholar of Sufism and colleague of C G Jung whose influence on contemporary religion and the humanities is beginning to become clear Cheetham's books have helped spark a renewed interest in the work of this important creative religious thinker Henry Corbin 1903 1978 was professor of Islamic religion at the Sorbonne in Paris and director of the department of Iranic studies at the Institut Franco Iranien in Teheran His wide ranging work includes the first translations of Heidegger into French studies in Swedenborg and Boehme writings on the Grail and angelology and definitive translations of Persian Islamic and Sufi texts He introduced such seminal terms as the imaginal realm and theophany into Western thought and his use of the Shi ite idea of ta wil or spiritual interpretation influenced psychologist James Hillman and the literary critic Harold Bloom His books were read by a broad range of poets including Charles Olson and Robert Duncan and his impact on American poetry says Cheetham has yet to be fully appreciated His published titles in English include *Creative Imagination in the Sufism of Ibn Arabi* *Avicenna and the Visionary Recital* and *The Man of Light in Iranian Sufism* As the religions of the Book place the divine Word at the center of

creation the importance of hermeneutics the theory and practice of interpretation cannot be overstated In the theology and spirituality of Henry Corbin the mystical heart of this tradition is to be found in the creative active imagination the alchemy of spiritual development is best understood as a story of the soul's search for the Lost Speech Cheetham eloquently demonstrates Corbin's view that the living interpretation of texts whether divine or human or indeed of the world itself seen as the Text of Creation is the primary task of spiritual life In his first three books on Corbin Cheetham explores different aspects of Corbin's work but has saved for this book his final analysis of what Corbin meant by the Arabic term *ta wil* perhaps the most important concept in his entire oeuvre Any consideration of how Corbin's ideas were adapted by others has to begin with a clear idea of what Corbin himself intended writes Cheetham his own intellectual and spiritual cosmos is already highly complex and eclectic and a knowledge of his particular philosophical project is crucial for understanding the range and implications of his work Cheetham lays out the implications of *ta wil* as well as the use of language as integral part of any artistic or spiritual practice with the view that the creative imagination is a fundamentally linguistic phenomenon for the Abrahamic religions and as Corbin tells us prayer is the supreme form of creative imagination Chrysalis ,1987
