*Cyclical Time & Ismaili Gnosis* Corbin, 2021-09-23 The volume *Cyclical Time and Ismaili Gnosis* brings together in English translation three of Henry Corbin's richest and most complex studies originally presented at the Eranos conferences of 1951 and 1954 and another conference in 1956 Each of these three relatively early studies is built around a complex highly creative comparison of the phenomenological correspondences between texts often highly fragmentary from a vast range of spiritual traditions from late Antiquity including Manichaenism and the sects of Sassanid Iran all gnostic in the root Greek sense of that term favoured by Corbin though not in the narrower historical sense used by most contemporary scholars and comparable spiritual themes in an equally wide range of Islamic texts eventually preserved in the later Ismaili Shi'i tradition

*Cyclical Time and Ismaili Gnosis* Henry Corbin, 1983 First Published in 1983 Routledge is an imprint of Taylor Francis an informa company      ***Cyclical Time & Ismaili Gnosis* Henry Corbin, 2013-01-11** First published in 1983 The volume *Cyclical Time and Ismaili Gnosis* brings together in English translation three of Henry Corbin's richest and most complex studies originally presented at the Eranos conferences of 1951 and 1954 and another conference in 1956 Each of these three relatively early studies is built around a complex highly creative comparison of the phenomenological correspondences between texts often highly fragmentary from a vast range of spiritual traditions from late Antiquity including Manichaenism and the sects of Sassanid Iran all gnostic in the root Greek sense of that term favoured by Corbin though not in the narrower historical sense used by most contemporary scholars and comparable spiritual themes in an equally wide range of Islamic texts eventually preserved in the later Ismaili Shi'i tradition      *Historical Dictionary of the Ismailis* Farhad Daftary, 2012 The Ismaili Muslims who belong to the Shia branch of Islam live in over 25 different countries around the world mainly in Asia Africa and the Middle East Their history has typically been linked to the history of the various countries in which they live but the worldwide community is united under Prince Karim Aga Khan the spiritual leader and 49th Imam of the Ismaili Muslims Few fields of Islamic studies have witnessed as drastic a change as Ismaili studies due in part to the recent discovery of numerous historical texts and author Farhad Daftary makes extensive use of these new sources in the *Historical Dictionary of the Ismailis* This comprehensive new reference work is the first of its kind on the Ismailis and presents a summary of the findings of modern scholarship on the Ismaili Shia Muslims and different facets of their heritage The dictionary covers all phases of Ismaili history as well as the main doctrines of the community It includes an introductory chapter which provides a broad historical survey of the Ismailis followed by alphabetical entries on all major aspects of the community such as key figures institutions traditions and doctrines It also contains a chronology genealogical tables a glossary and a substantial bibliography This book is an excellent access point for students researchers and anyone wanting to know more about the Ismailis      *Mysticism and Philosophy in al-Andalus* Michael Ebstein, 2013-11-21 Muslim Spain gave rise to two unusual figures in the mystical tradition of Islam Ibn Masarra 269 883 319 931 and Ibn al Arab 560 1165 638 1240 Representing

respectively the beginning and the pinnacle of Islamic mysticism in al Andalus Ibn Masarra and Ibn al Arab embody in their writings a type of mystical discourse which is quite different from the Sufi discourse that evolved in the Islamic east during the 9th 12th centuries In *Mysticism and Philosophy in al Andalus* Michael Ebstein points to the Ism l tradition as one possible source which helped shape the distinct intellectual world from which both Ibn Masarra and Ibn al Arab derived By analyzing their writings and the works of various Ism l authors Michael Ebstein unearths the many links that connect the thought of Ibn Masarra and Ibn al Arab to the Ism l tradition

**Early Philosophical Shiism** Paul E. Walker, 1993-07-30 The first book length study of a leading tenth century Ismaili theoretician Abu Ya qub al Sijistani

**Jewish History and Jewish Memory** Yosef Hayim Yerushalmi, 1998 Publication of Yosef Yerushalmi s *Zakhor* in 1982 inspired a generation of scholarly inquiry into historical images and myths the construction of the Jewish past and the making and meaning of collective memory Here eminent scholars in their respective fields extend the lines of his seminal study into topics that range from medieval rabbinics homiletics kabbalah and Hasidism to antisemitism Zionism and the making of modern Jewish identity Essays are clustered around four central themes historical consciousness and the construction of memory the relationship between time and history in Jewish thought the demise of traditional forms of collective memory and the writing of Jewish history in modern times

*Extremist Shiites* Matti Moosa, 1988-02-01 Little is known in the West about the division of the Islamic world into Shiites and Sunnites and even less about the stratification of these two groups with most of the attention going to the Sunnites Moosa s comprehensive study of the origins and cultural aspects of the different extremist or Ghulat Shiite sects in the Middle East is a ground breaking work These sects whose extremism is essentially religious are generally a peaceful people and except for the Nusayris of Syria are not political activists

*All the World an Icon* Tom Cheetham, 2012-07-03 *All the World an Icon* is the fourth book in an informal quartet of works by Tom Cheetham on the spirituality of Henry Corbin a major twentieth century scholar of Sufism and colleague of C G Jung whose influence on contemporary religion and the humanities is beginning to become clear Cheetham s books have helped spark a renewed interest in the work of this important creative religious thinker Henry Corbin 1903 1978 was professor of Islamic religion at the Sorbonne in Paris and director of the department of Iranic studies at the Institut Franco Iranien in Teheran His wide ranging work includes the first translations of Heidegger into French studies in Swedenborg and Boehme writings on the Grail and angelology and definitive translations of Persian Islamic and Sufi texts He introduced such seminal terms as the imaginal realm and theophany into Western thought and his use of the Shi ite idea of ta wil or spiritual interpretation influenced psychologist James Hillman and the literary critic Harold Bloom His books were read by a broad range of poets including Charles Olson and Robert Duncan and his impact on American poetry says Cheetham has yet to be fully appreciated His published titles in English include *Creative Imagination in the Sufism of Ibn Arabi* *Avicenna and the Visionary Recital* and *The Man of Light in Iranian Sufism* As the religions of the Book place the divine Word at the center of creation the importance of hermeneutics the theory and

practice of interpretation cannot be overstated In the theology and spirituality of Henry Corbin the mystical heart of this tradition is to be found in the creative active imagination the alchemy of spiritual development is best understood as a story of the soul's search for the Lost Speech Cheetham eloquently demonstrates Corbin's view that the living interpretation of texts whether divine or human or indeed of the world itself seen as the Text of Creation is the primary task of spiritual life In his first three books on Corbin Cheetham explores different aspects of Corbin's work but has saved for this book his final analysis of what Corbin meant by the Arabic term *ta wil* perhaps the most important concept in his entire oeuvre Any consideration of how Corbin's ideas were adapted by others has to begin with a clear idea of what Corbin himself intended writes Cheetham his own intellectual and spiritual cosmos is already highly complex and eclectic and a knowledge of his particular philosophical project is crucial for understanding the range and implications of his work Cheetham lays out the implications of *ta wil* as well as the use of language as integral part of any artistic or spiritual practice with the view that the creative imagination is a fundamentally linguistic phenomenon for the Abrahamic religions and as Corbin tells us prayer is the supreme form of creative imagination Chrysalis ,1987 Resurrection and Renewal Abbas Amanat,1989

Resurrection and Renewal reflects extensive research by the author in the numerous Babi and Baha'i manuscript histories From these he has succeeded in extracting much useful information and presenting it in an interesting and informative manner The Middle East Journal In historical writing of rare power Abbas Amanat conveys the elation and terror that attend the birth of a new religious faith Amanat here tells the story of the emergence of Babism the forerunner of the Baha'i religion in the mid nineteenth century its rapid spread into various sectors of Iranian society and its fatal confrontation with the clerical establishment and the Qajar state **Deciphering the Signs of God** Annemarie Schimmel,1994 Based On Both Original Classical Sources And Modern Literature As Well As The Author's Considerable Personal Experience This Is Not Only A Fascinating Survey Of Islamic Customs And Beliefs But Also A Serious Attempt To Show The Place Of Islam In The Religious Universe Fourteen Hundred Years of Shared Values Steven M.
