Greek and Roman Historiography in Late Antiquity Gabriele Marasco,2003-07-01 This book is the first comprehensive study of Greek and Latin historiography from Constantine to the end of the sixth century AD It aims to examine the development of late antique historiography stressing chiefly the relations between pagan and Christian historians their polemics but also their often neglected agreements Of special importance is the study of the Church historians who are considerable but not adequately known sources for the political and social history of the period Greek and Latin Historiography in Late Antiquity is a highly valuable and useful reference tool for both scholars and students Greek and Roman Historiography in Late Antiquity has been selected by Choice as Outstanding Academic Title 2005 **The Power of Religion in Late Antiquity** Andrew Cain,2016-09-17 Late Antiquity witnessed a dramatic recalibration in the economy of power and nowhere was this more pronounced than in the realm of religion The transformations that occurred in this pivotal era moved the ancient world into the Middle Ages and forever changed the way that religion was practiced The twenty eight studies in this volume explore this shift using evidence ranging from Latin poetic texts to Syriac letter collections to the iconography of Roman churches and Merovingian mortuary goods They range in chronology from the late third through the early seventh centuries AD and apply varied theories and approaches All converge around the notion that religion is fundamentally a discourse of power and that power in Late Antiquity was especially charged with the force of religion The articles are divided into eight sections which examine the power of religion in literature theurgical power over the divine emperors and the deployment of religious power limitations on the power of the ecclesiastical hierarchy the use of the cross as a symbol of power Rome and its transformation as a center of power the power of religion in the barbarian west and religious power in the communities of the east This kaleidoscope of perspectives creates a richly illuminating volume that add a new social and political dimension to current debates about religion in Late Antiquity Writing and Holiness Derek Krueger,2013-04-03 Drawing on comparative literature ritual and performance studies and the history of asceticism Derek Krueger explores how early Christian writers came to view writing as salvific as worship through the production of art Exploring the emergence of new and distinctly Christian ideas about authorship in late antiquity Writing and Holiness probes saints lives and hymns produced in the Greek East to reveal how the ascetic call to imitate Christ s humility rendered artistic and literary creativity problematic In claiming authority and power hagiographers appeared to violate the saintly practices that they sought to promote Christian writers meditated within their texts on these tensions and ultimately developed a new set of answers to the question What is an author Each of the texts examined here used writing as a technique for the representation of holiness Some are narrative representations of saints that facilitate veneration others are collections of accounts of miracles composed to publicize a shrine Rather than viewing an author s piety as a barrier to historical inquiry

Krueger argues that consideration of writing as a form of piety opens windows onto new modes of practice. He interprets Christian authors as participants in the religious system they described as devotees, monastics and faithful emulators of the saints and he shows how their literary practice integrated authorship into other Christian practices such as asceticism, devotion, pilgrimage, liturgy and sacrifice. In considering the distinctly literary contributions to the formation of Christian piety in late antiquity, *Writing and Holiness* uncovers Christian literary theories with implications for both Eastern and Western medieval literatures.

[Liturgy and Byzantinization in Jerusalem](#) Daniel Galadza, 2017-12-05. The Church of Jerusalem, the mother of the churches of God, influenced all of Christendom before it underwent multiple captivities between the eighth and thirteenth centuries: first political subjugation to Arab-Islamic forces, then displacement of Greek-speaking Christians by Crusaders, and finally ritual assimilation to fellow Orthodox Byzantines in Constantinople. All three contributed to the phenomenon of the Byzantinization of Jerusalem's liturgy, but only the last explains how it was completely lost and replaced by the liturgy of the imperial capital, Constantinople. The sources for this study are rediscovered manuscripts of Jerusalem's liturgical calendar and lectionary. When examined in context, they reveal that the devastating events of the Arab conquest in 638 and the destruction of the Holy Sepulchre in 1009 did not have as detrimental an effect on liturgy as previously held. Instead, they confirm that the process of Byzantinization

was gradual and locally effected rather than an imposed element of Byzantine imperial policy or ideology of the Church of Constantinople Originally the city s worship consisted of reading scripture and singing hymns at places connected with the life of Christ so that the link between holy sites and liturgy became a hallmark of Jerusalem s worship but the changing sacred topography led to changes in the local liturgical tradition Liturgy and Byzantinization in Jerusalem is the first study dedicated to the question of the Byzantinization of Jerusalem s liturgy providing English translations of many liturgical texts and hymns here for the first time and offering a glimpse of Jerusalem s lost liturgical and theological tradition

The Beginnings of Christian Theology in Arabic Sidney H. Griffith, 2024-12-11 The articles in this collection complement those in Professor Griffith s previous volume Arabic Christianity in the Monasteries of 9th Century Palestine studying the first efforts of Christians living in the early Islamic world to respond to the religious challenges of Islam In particular the author shows how Christian apologists who wrote in Arabic adopted in defense of Christian doctrines the modes of discourse *kalam* then employed by Muslim controversialists *mutakallimun* to advance the claims of Islam The writers whose works are studied here developed a truly Christian *ilm al kalam* that is to say a science of defending Christianity in an Arabic idiom borrowed largely from Muslims
