From Nicaea to Chalcedon Frances M. Young, 2013-01-26 Created as a companion guide to a Patristics textbook *From Nicaea to Chalcedon* surveys a variety of writings to have occurred during one of the most significant periods in the formation of the Church from 265 466 It does not aim to cover the subject as a textbook would but aims to delve deeper into some of the characters who were involved with the Church or the Councils during this period Beginning with Eusebius of Caesarea and the first council of the Church at Nicaea and ending with Theodore of Cyrrhus who is thought to have changed his view of Christology after the watershed Council of Chalcedon this unique text surveys some of the most influential characters to have shaped Church history and the formation of doctrine Surveying a mixture of significant literary figures laymen bishops and heretics this book presents biographical literary critical and theological information about each They are chosen either because they are important to the history of doctrine or because new material about them has thrown light upon their work or because they will broaden the reader's understanding of the culture and history of the period or of live issues in the church at the time Structured in five parts each part deals with a period of time and a sequence of characters so the book is easily followed in chronological order Added to this is the double bibliography which in this edition is fully updated Bibliography A details those texts in English of the original texts of antiquity whilst Bibliography B provides details of publications in English French and German which have appeared since 1960 2004 on or about the characters discussed in the body of the text Papers Presented at the Fourteenth International Conference on Patristic Studies Held in Oxford 2003 Frances Margaret Young, Mark J. Edwards, Paul M. Parvis, 2006 *Studia Patristica* F. Young, Paul M. Parvis, 2006 Papers presented at the Fourteenth International Conference on Patristic Studies held in Oxford 2003 see also *Studia Patristica* 39 40 41 and 43 The successive sets of *Studia Patristica* contain papers delivered at the International Conferences on Patristic Studies which meet for a week once every four years in Oxford they are held under the aegis of the Theology Faculty of the University Members of these conferences come from all over the world and most offer papers These range over the whole field both East and West from the second century to a section on the *Nachleben* of the Fathers The majority are short papers dealing with some small and manageable point they raise and sometimes resolve questions about the authenticity of documents dates of events and such like and some unveil new texts The smaller number of longer papers put such matters into context and indicate wider trends The whole reflects the state of Patristic scholarship and demonstrates the vigour and popularity of the subject Of God and Man M. C. Steenberg, 2009-01-01 Scholarship in early Christianity has long focused on themes of theological doctrine on the one hand and anthropology on the other Doctrinal study has generally concentrated on the rise of Trinitarian language and Christological questions while anthropological studies explore early perceptions of human nature sin and redemption This has produced standard chronologies of doctrine dividing early Christian history into distinct if interrelated periods of history in the development of these views Building on current

scholarship this volume reassesses such an approach to early patristic study through a sustained investigation of anthropology and theology as a single project in the fathers Taking Irenaeus of Lyons Tertullian of Carthage Cyril of Jerusalem and Athanasius of Alexandria as chief examples of the period it explores how concentration on the human provides the context and lens through which doctrinal questions are articulated Assessing theology as anthropology as the approach to doctrines of God through understandings of the human creative insight is gleaned into refined developments of trinitarian thought far earlier than Nicaea and advanced reflections on the divinity of the Holy Spirit long before Constantinople The nature of humanity as in the image of God takes on a fresh potency when it is approached not only as a window on the human but the means by which the human reveals the nature of God The Oxford Dictionary of the Christian Church Frank Leslie Cross, Elizabeth A. Livingstone, 2005 Uniquely authoritative and wide ranging in its scope The Oxford Dictionary of the Christian Church is the indispensable one volume reference work on all aspects of the Christian Church It contains over 6 000 cross referenced A Z entries and offers unrivalled coverage of all aspects of this vast and often complex subject including theology churches and denominations patristic scholarship the bible the church calendar and its organization popes archbishops saints and mystics In this revision innumerable small changes have been made to take into account shifts in scholarly opinion recent developments such as the Church of England's new prayer book Common Worship RC canonizations ecumenical advances and mergers and where possible statistics A number of existing articles have been rewritten to reflect new evidence or understanding for example the Holy Sepulchre entry and there are a few new articles Perhaps most significantly a great number of the bibliographies have been updated Established since its first appearance in 1957 as an essential resource for ordinands clergy and members of religious orders ODCC is an invaluable tool for academics teachers and students of church history and theology as well as for the general reader Cyril Of Jerusalem Jan Willem Drijvers, 2004-01-01 This volume deals with the episcopate of Cyril of Jerusalem 350 to 387 Its overall theme is the relationship between the city and its bishop and in particular Cyril's efforts to promote Jerusalem as the Christian city par excellence by employing Jerusalem's religious symbols the holy sites and the Cross Apart from chapters on Jerusalem in the fourth century C E and on the life and works of Cyril this study discusses important aspects and events of Cyril's episcopacy such as his pastoral work as an urban bishop of the Jerusalem Christian community Jerusalem's liturgy the rebuilding of the Temple giving a re interpretation of the Syriac letter ascribed to Cyril about this event and Jerusalem's and Palestine's religious landscape **Melania** Catherine Michael Chin, Caroline T. Schroeder, 2020-10-27 Melania the Elder and her granddaughter Melania the Younger were major figures in early Christian history using their wealth status and forceful personalities to shape the development of nearly every aspect of the religion we now know as Christianity This volume examines their influence on late antique Christianity and provides an insightful portrait of their legacies in the modern world Departing from the traditionally patriarchal view Melania gives a poignant and sometimes surprising account of how the rise
