Czech Republic Completing The Transformation Of Banks And Enterprises:

Czech Republic ,2000-01-01 The Czech Republic arrived at the end of the 1990s with an unfinished transformation agenda Especially apparent were the lingering problems in the major banks and large segments of the corporate sector which led to an unsatisfactory economic performance The root cause for the poor performance stems from the weak internal and external mechanisms of corporate governance While the Czech government has made efforts to improve the situation there are still elements of the restructuring agenda that remain largely absent This report aims to assist the Czech authorities in their ongoing efforts to improve the overall institutional and legal framework for the restructuring of distressed enterprises and for new lending as well It examines the present status reviews the progress made and provides recommendations for improvement **Expenditure Policies Toward EU Accession** Bernard Funck,2002-01-01

Expenditure Policies Toward EU Accession presents the set of public expenditures that could be conducive to rapid growth and convergence among the Central and Eastern European countries This report assesses public expenditure policy objectives and provides best practice and lessons learned in designing expenditure reforms within these countries It also highlights ways in which key expenditure programs such as education environment and transport can be redirected so as to be more fully supportive of growth objectives *International Labour Documentation* International Labour Organization. Engerer,2001-06-18 Hella Engerer analyses the emergence evolution and theory of property rights and establishes the limits for privatization of state owned enterprises in the transitional economies of Eastern Europe She counters the assumption that reduction of the state sector helps to create the basis for a private property system showing that privatization actually presupposes a stable framework including property order She makes use of an outstanding methodological approach reaching well beyond the limits of pure economic observation This is a major contribution to the understanding of the emerging economic order of Central and Eastern Europe *Publications Update* World Bank,1996 **Journal of Economic Literature** ,2001 **Bibliographic Guide to Slavic, Baltic, and Eurasian Studies** ,2000 *Review of International Studies* ,2005 **Index to International Statistics** ,2002 **Books in Print Supplement** ,2002 **The Great Rebirth** Anders Aslund, Simeon Djankov,2014-10-29 The fall of communism 25 years ago transformed the political and economic landscape in more than two dozen countries across Europe and Asia In this volume political leaders scholars and policymakers assess the lessons learned from the great rebirth of capitalism highlighting the policies that were the most successful in helping countries make the transition to stable and prosperous market economies as well as those cases of

countries reverting to political and economic authoritarianism The authors of these essays conclude that visionary leadership and a willingness to take bold and comprehensive steps achieved the best outcomes and that privatization of state owned enterprises and deregulation were essential to success Recent backsliding such as the reversal of economic and democratic reforms in Russia and Hungary has cast a shadow over the legacy of the transition a quarter century ago however **Book Review Index** ,2003 Vols 8 10 of the 1965 1984 master cumulation constitute a title index Bibliographie Mensuelle United Nations Library (Geneva, Switzerland),2001 Central and Eastern Europe ,1991 *Slovak Republic* International Monetary Fund,2001-08-03 During 1996 98 the measured fiscal deficits have substantially underestimated the extent of the fiscal problem in Slovakia Amid these signs of vulnerability the present government has assumed office in October 1998 and embarked on policies to restore macroeconomic balances and lay the basis for sustainable economic growth The fiscal tightening and developments in the nongovernment sector has led to a sharp fall in domestic demand in 1999 but a strong improvement in net trade performance partly offset their impact on aggregate demand Private Sector Development During Transition Michael S.
