aggression Dragan Bakic argues that the British approach to security problems in Danubian Europe had certain permanent features which stemmed from the general British outlook on the new successor states the members of the Little Entente founded on the ruins of the Habsburg monarchy This book shows that it was the lack of confidence in their stability and permanence as well as the misperceptions about the motives and intentions of the policies pursued by other Powers towards Central South Eastern Europe which accounted for the apparent sluggishness and ineffectiveness of the Foreign Office s dealings with security challenges Based on extensive original archival research this is a fascinating volume for any historian keen to know more about the 20th century history of East Central Europe or British foreign policy in the interwar years
