Czechoslovakia between Stalin and Hitler Igor Lukes, 1996-05-23 The Munich crisis of 1938 in which Great Britain and France decided to appease Hitler's demands to annex the Sudetenland has provoked a vast amount of historical writing. The era has been thoroughly examined from the perspectives of Germans, French and British political establishments. But historians have had until now only a vague understanding of the roles played by the Soviet Union and Czechoslovakia, the country whose very existence was at the very center of the crisis. In *Czechoslovakia Between Stalin and Hitler* Igor Lukes explores this turbulent and tragic era from the new perspective of the Prague government itself. At the center of this study is Edvard Benes, a Czechoslovak foreign policy strategist and a major player in the political machinations of the era. The work looks at the first two decades of Benes's diplomacy and analyzes the Prague Government's attempts to secure the existence of the Republic of Czechoslovakia in the treacherous space between the millstones of the East and West. It studies Benes's relationship with Joseph Stalin, outlines the role assigned to Czechoslovak communists by the VIIth Congress of the Communist International in 1935 and dissects Prague's secret negotiations with Berlin and Benes's role in the famous Tikhachevsky affair. The work also brings evidence regarding the so-called partial mobilization of the Czechoslovak army in May 1938 and focuses on Stalin's strategic thinking on the eve of World War II. Until the fall of the Berlin Wall it was difficult for Western researchers to gain access to the rich archival collections of the East. *Czechoslovakia Between Stalin and Hitler* makes ample use of these secret archives both in Prague and in Russia. As a result it is an accurate and original rendition of the events which eventually sparked the Second World War. **National Union Catalog, 1981** ,1982

Journal of Glass Studies ,1988 *Czech Women Philosophers and Scientists* Zdeňka Jastrzemska, Dagmar Pichová, Jan Zouhar, 2020-11-11 This book examines the most important Czech women philosophers and scientists. It highlights the lives and achievements of a group that has often not received the recognition they deserve. Chapters provide a systematic description and critical evaluation of the impact these women had on the history of philosophy and science. After an opening chapter on the status of women philosophers and scientists in the period before 1820, the book explores the role women played in the 19th-century rise of Czech culture, Czech National Revival. The following chapter then introduces the situation of Czech women philosophers and scientists in the 20th century. The authors base the material on analysis of key works and the characteristics of contemporary debates in which these women participated. The volume describes the complex conditions of women in Czech history in relation to the position of learned women in other European countries. The authors also emphasize their link to the historical background. This encompassing coverage helps provide readers with a richer understanding of these important women and the period in which they lived. Academicians and the general public alike will

also learn about the political and social limitations these women faced and the influence of historical conditions on their work
