D H Lawrence Travel And Cultural Difference:

D.H. Lawrence, Travel and Cultural Difference N. Roberts, 2004-09-17 This study of Lawrence's travel writings is the first book length study to approach the subject with reference to contemporary post colonial theory Focusing on the writings of 1921-25 the period when Lawrence was most intensely engaged in travel it includes chapters on *Sea and Sardinia* *Kangaroo* *The Plumed Serpent* and the essays and stories inspired by Lawrence's experience of the New World **D. H. Lawrence, Transport and Cultural Transition** Andrew F. Humphries, 2017-04-07 This book discusses D H Lawrence's interest in and engagement with transport as a literal and metaphorical focal point for his ontological concerns Focusing on five key novels this book explores issues of mobility modernity and gender First exploring how mechanized transportation reflects industry and patriarchy in *Sons and Lovers* the book then considers issues of female mobility in *The Rainbow* the signifying of war transport in *Women in Love* revolution and the meeting of primitive and modern in *The Plumed Serpent* and the reflection of dystopian post war concerns in *Lady Chatterley's Lover* Appealing to Lawrence modernist and mobilities researchers this book is also of interest to readers interested in early twentieth century society the First World War and transport history

The Reimagining of Place in English Modernism Sam Wiseman, 2015 Analyses key texts by D H Lawrence John Cowper Powys Mary Butts and Virginia Woolf charting their respective attempts to forge new identities perspectives and literary approaches that reconcile tradition and modernity belonging and exploration the rural and the metropolitan **Travel, Modernism and Modernity** Robert Burden, 2016-03-09 Focusing on the significance of travel in Joseph Conrad E M Forster D H Lawrence Henry James and Edith Wharton Robert Burden shows how travel enabled a new consciousness of mobility and borders during the modernist period For these authors Burden suggests travel becomes a narrative paradigm and dominant trope by which they explore questions of identity and otherness related to deep seated concerns with the crisis of national cultural identity He pays particular attention to the important distinction between travel and tourism at the same time that he attends to the slippage between seeing and sightseeing between the local character and the stereotype between art and kitsch and between older and newer ways of storytelling in the representational crisis of modernism Burden argues that the greater awareness of cultural difference that characterizes both the travel writing and fiction of these expatriate writers became a defining feature of literary modernism resulting in a consciousness of cultural difference that challenged the ethnographic project of empire Landscape and Englishness Robert Burden, Stephan Kohl, 2006 In the papers collected in this the first volume of the *Spatial Practices* series Englishness is reflected in the spaces it occupies or dwells in Broadly influenced by a renewed and growing interest in questions of cultural identity its emergence in Victorian theories and fictions of nationality and the new cultural geography the papers cover a rich variety of spaces and places which have been appropriated for cultural meanings the rural countryside and farmland of the Home Counties in the early nineteenth century as Arcadian idyll in Cobbett as the land to die for in war propaganda and as nostalgia for a unified organic English culture in

Lawrence Morton and Priestley's travel writing but also in the Shell Tourist Guides to motoring in rural England English moorland the sacred geographies of monuments in Hardy and others the traditional seaside deconstructed in Martin Parr's photography and the sea as English Victorian imperial territory and its symbolic breezes in Froude's travel writing The English landscape is also a paradigm for the description of other places in D H Lawrence's travel writing or for the colonial territory itself in Rushdie's writing India a displacement of other landscapes This collection of papers examines the assumption that constructions of rural England provide the basis for an understanding of Englishness *Choice* ,2009

The Woman who Rode Away David Herbert Lawrence,2006 In his introduction James Lasdun discusses the theme of liberation and the ways in which it is conveyed in these works Using the restored texts of the Cambridge edition this volume includes further reading a new chronology and notes by Paul Poplawski **BOOK JACKET** **Notes and Queries** ,2011

American Book Publishing Record ,2005 *The British National Bibliography* Arthur James Wells,2004 **The Manhattan Review** ,2003 *Annual Report on English and American Studies* ,2005 **American Travel and Empire** Susan P. Castillo,David Seed,2009 In this volume leading scholars examine the interfaces between narratives of travel and empire Including both writing about America by visitors and the travel writing of Americans abroad this collection explores the ways in which descriptions of the landscapes and peoples of colonized areas shaped our perceptions as well as other issues related to the American empire such as the transmission of images and metaphor between colony and metropolis the portrayal of cultures as primitive or wild the cultural and economic hegemony underlying American and European travel writing and the deployment of cultural encounters to reinforce sovereign cultural practices **Re-reading Cultural Geography** Kenneth E. Foote,1994 The geography of culture has held a sustained attraction for some of the most distinguished and promising geographers of this century These notable voices have now been brought together to explore the cultural landscape in this fresh encompassing survey of one of geography's most vital research areas *The D. H. Lawrence Review* ,1980 **Agenda** William Cookson,2002 **D. H. Lawrence Studies** ,1999 *The Story of English Literature* Anne Northgrave Tibble,1970 This book surveys the evolution and development of English prose and poetry through the centuries from Beowulf to Samuel Beckett's dramas *MLA International Bibliography of Books and Articles on the Modern Languages and Literatures* ,2006 **Governance by Decree** Ruth P. Morgan,2004 The Voting Rights Act of 1965 which originally was intended to prohibit barriers to black registration and voting has been hailed as a triumph for civil rights and as a catalyst for the election of minorities to public office in both the Deep South and the urban North To advance its objective federal courts instructed many cities to change from at large to single member district electoral systems as a way to ensure that minorities had a reasonable chance to elect representatives of their choice In the first book to critique the implementation of this landmark legislation in a major American city Ruth Morgan examines its effect on local governance over forty years in Dallas and shows that it had unintended consequences for racial politics representation and public policy

Breaking from studies that measure the success of the VRA in terms of increased minority representation Morgan assesses the consequences of the Act for Dallas city government and for the wider interests of minorities as well While endorsing the original intent of the VRA Morgan believes that this intent was subverted by subsequent amendments to the Act and by the courts attempts to advance the political standing of particular minority groups She argues that court imposed single member districts have created in Dallas a city council infected with parochialism and careerism a result of members no longer having to compromise to win citywide votes and have had an adverse impact on governmental effectiveness and voter turnout With corruption and cronyism now rampant voting rights legislation and litigation have ultimately failed to fulfill the hopes and aspirations of the unempowered and the district system has created an incentive for continued racial separation Governance by Decree offers a pointed assessment of the complexities and contradictions produced by the voting rights law while at the same time calling for the federal judiciary to exercise restraint in imposing its will when it lacks the capacity to make choices that are inherently political Morgan s powerfully argued case study should inspire much debate and inform forthcoming congressional deliberations over the renewal of the preclearance section of the VRA in 2007
