*Anarchism and the Advent of Paris Dada* Theresa Papanikolas, 2017-07-05 *Anarchism and the Advent of Paris Dada* sheds new light on Paris Dada's role in developing the anarchist and individualist philosophies that helped shape the cultural dialogue in France following the First World War. Drawing on such surviving documentation as correspondence, criticism, periodicals, pamphlets, and manifestoes, this book argues that contrary to received wisdom, Dada was driven by a vision of social change through radical cultural upheaval. The first book-length study to interrogate the Paris Dadaists' complex and often contested position in the postwar groundswell of anarcho-individualism, *Anarchism and the Advent of Paris Dada* offers an unprecedented analysis of Paris Dada literature and art in relation to anarchism and also revives a variety of little-known anarcho-individualist texts and periodicals. In doing so, it reveals the general ideological diversity of the postwar French avant-garde and identifies its anarchist concerns. In addition, it challenges the accepted paradigm that postwar cultural politics were monolithically nationalist. By positioning Paris Dada in its anarchist context, this volume addresses a long-ignored lacuna in Dada scholarship and more broadly takes its place alongside the numerous studies that over the past two decades have problematized the politics of modern art literature and culture. **Dada** Manuel L. Grossman, 1971 **Challenging**

**Modernity** Mark A. Pegrum, 2000-04-01 When Dada burst onto the European stage in 1916, it shocked and scandalized the public of its day with art forms, ideas, and attitudes which were so revolutionary that it is only in recent decades that they have begun to find recognition within the broad cultural movement known as postmodernism. In fact, many postmodern artistic and intellectual tendencies can be seen to have descended via an underground tradition from the experiments of the Dadaists earlier this century. Yet the existence of this close link has been largely neglected by scholars. This book, for the first time, examines in depth the link between modernism and postmodernism and demonstrates the extensive similarities as well as the few crucial differences between the ideas and art of the Dadaists on the one hand and those of contemporary postmodern thinkers and artists on the other. Although they did not have access to postmodern terminology, it is clear that many Dadaists were essentially attempting to escape constrictive Enlightenment and modernist structures in order to create a proto-postmodern space of difference, otherness, and flux. Their successes, failures, and compromises in this respect are very illustrative for anyone interested in the progress of our own intellectual and artistic culture in its wavering between modern and postmodern. This book offers a much-needed historical perspective and solid basis for the ongoing debate on postmodernism. **Modernism and the Occult** John Bramble, 2015-03-04 This study of modernism's high imperial occult exotic affiliations presents many well-known figures from the period 1880-1960 in a new light. *Modernism and the Occult* traces the history of modernist engagement with irregular, heterodox, and imported knowledge. Dada Manuel L. Grossman, 1971 **In the Shadow of the Holocaust & Other Essays** Constantin V. Ponomareff, 2023-12-14 The main thrust of this collection of essays, excluding those on Russian literature, is to visualize the European Holocaust from a number

of different vantage points the historical and cultural the political and individual the psychological and social and the critical and literary This wider perspective especially as it relates to the range and extent of human suffering suggests that a redefinition of the twentieth century Holocaust is now timely

**The Dada Painters and Poets** Robert Motherwell, 1989 Presents a collection of essays manifestos and illustrations that provide an overview of the Dada movement in art describing its convictions antics and spirit through the words and art of its principal practitioners

**Crisis and the Arts: Paris Dada, the barbarians storm the gates** Stephen C. Foster, 1996 Launches an eight volume series on the rebellious art form created during World War I by artists and writers in Zurich reacting to the horror of war the onslaught of new technology and the stifling aesthetics of futurism and cubism In 11 essays provides parameters for the historical and sociological context of the movement its manifestation in visual arts theater the media and literature the correspondence between the actual works and the various manifestos and the relevance of studying the phenomenon to present concerns Illustrated in black and white Annotation copyrighted by Book News Inc Portland OR

Writing Space J. David Bolter, 1991 This book is a study of the computer as a new technology for reading and writing a technology that may replace the printing press as our principal medium of symbolic communication One of the main subjects of *Writing Space* is hypertext a technique that allows scientists scholars and creative writers to construct texts that interact with the needs and desires of the reader Bolter explores both the theory and practice of hypertext demonstrating that the computer as hypertext represents a new stage in the long history of writing one that has far reaching implications in the fields of human and artificial intelligence cognitive science philosophy semiotics and literary theory Through a masterful integration of introductory historical illustrative and theoretical material as well as an accompanying diskette containing a sample of
