Daedalus Why South Africa Matters:

Governing through Crime in South Africa Gail Super, 2016-04-22 This book deals with the historic transition to democracy in South Africa and its impact upon crime and punishment It examines how the problem of crime has emerged as a major issue to be governed in post apartheid South Africa Having undergone a dramatic transition from authoritarianism to democracy from a white minority to black majority government South Africa provides rich material on the role that political authority and challenges to it play in the construction of crime and criminality As such the study is about the socio cultural and political significance of crime and punishment in the context of a change of regime The work uses the South African case study to examine a question of wider interest namely the politics of punishment and race in neoliberalizing regimes It provides interesting and illuminating empirical material to the broader debate on crime control in post welfare neoliberalizing post transition polities

Global Health In Practice: Investing Amidst Pandemics, Denial Of Evidence, And Neo-dependency Olusoji Adeyi, 2021-12-28 The COVID 19 pandemic has laid bare the world s vulnerabilities to health and economic ruin from disease outbreaks But the pandemic merely reveals fundamental weaknesses and contradictions in global health What are the roots of discontents in global health How do geo politics power dynamics knowledge gaps racism and corruption affect global health Is foreign aid for health due for a radical overhaul This book is an incisive guide to the practice of global health in real life Global health policy is at a crossroads It is on trial at the interface between the Global North and the Global South There has been remarkable progress in health outcomes over the past century Yet countries face a complex landscape of lofty ambitions in the form of political commitments to Universal Health Coverage Human Capital and Global Health Security These ambitions are tempered by multiple constraints Investors in global health must navigate a minefield of uneven progress great expectations and denials of scientific evidence by entrenched interests That terrain is further complicated by the hegemonic suppression of innovation that threatens the status quo and by self perpetuating cycles of dependency of the Global South on the Global North This book is an unflinching scrutiny of concepts and cases by a veteran of global health policy and practice It holds a mirror to the world and lays out pathways to a better future The book is a must have GPS for policy makers and practitioners as they navigate the maze of global health

Overcoming Historical Injustices James L. Gibson, 2009-07-20 *Overcoming Historical Injustices* is the last entry in Gibson s overcoming trilogy on South Africa s transformation from apartheid to democracy Focusing on the issue of historical land dispossessions the taking of African land under colonialism and apartheid this book investigates the judgements South Africans make about the fairness of their country s past Should for instance land seized under apartheid be returned today to its rightful owner Gibson s research zeroes in on group identities and attachments as the thread that connects people to the past Even when individuals have experienced no direct harm in the past they care about the fairness of the treatment of their group to the extent that they identify with that group Gibson s analysis shows that land issues in

contemporary South Africa are salient volatile and enshrouded in symbols and most important that interracial differences in understandings of the past and preferences for the future are profound

Transition Economies Gergő M. Lakatos, 2008 A transition economy is an economy which is changing from a planned economy to a free market Transition economies undergo economic liberalisation letting market forces set prices and lowering trade barriers macroeconomic stabilisation where immediate high inflation is brought under control and restructuring and privatisation in order to create a financial sector and move from public to private ownership of resources These changes often may lead to increased inequality of incomes and wealth dramatic inflation and a fall of GDP Transition process is usually characterised by the changing and creating of institutions particularly private enterprises changes in the role of the state thereby the creation of fundamentally different governmental institutions and the promotion of private owned enterprises markets and independent financial institutions This new book presents the latest research from around the world in this field

Law, Society, and Democracy: Comparative Perspectives Richard D. Schwartz, 2006-10-09 In George Bush's Second Inaugural Address he stated so it is the policy of the United States to seek and support the growth of democratic movements and institutions in every nation and culture Along with such a formidable challenge comes the essential need for scholars and policy makers alike to gain a deeper understanding of the interrelationship between law society and culture Collected from the successful 2005 Syracuse conference of the same name the papers in this unique issue of *The ANNALS* zero in on critical studies that focus on other societies which are evolving toward or away from constitutional democracy and a rule of law Not to be confused with Social Darwinism the term legal evolution in this context refers to the development or changes of law and the papers included here demonstrate value free objectivity not labeling the results as either good or bad Rather than offering a prescriptive or claiming a precise forecast this collection of thoughtful research examines the sociocultural foundations on which law is built constructing the groundwork for the advancement of policy and further exploration in this intriguing area of study The intense research conducted by these authors shines through as they elucidate the patterns of legal development and governmental change in societies abroad Their reports and analysis will help readers understand the diversity of sociolegal systems and divergent paths that have been followed as laws have developed in a wide variety of societies including South Africa Germany Latin America Sudan Saudi Arabia and China Terrorism remains an underlying issue in both a domestic and global perspective Can law contribute to the control of terrorism Are we moving toward global rules of law What are the consequences of transitioning toward democracy The thoughtful papers in this issue address these and other timely topics How can legal evolution be a useful tool for analyzing social change How well does law in any society express and implement the needs of the population What effect do social mores have on the effectiveness of law The complexity of these questions cannot be easily answered However after carefully reviewing the rich collection of ideas gathered in this single issue scholars and policy makers will gain a deeper understanding of the evolution of law and constitutional democracy
