**Daily Meditations 2022** Omraam Mikhaël Aïvanhov, 2022-02-02 Every morning before you do anything else you must give yourself a few quiet moments of reflection so as to begin your day in peace and harmony and unite yourself to the Creator by dedicating the new day to Him through prayer meditation It is the beginning that is all important for it is then at the beginning that new forces are set in motion and given direction If we want to act wisely and well we have to begin by casting some light on the situation You do not look for something or start work in the dark you start by lighting a lamp so that you can see what you are doing And you can apply the same principle to every area in life in order to know what to do and how to do it you have to switch on the light in other words to concentrate and look into yourself Without this light you will wander in all directions and knock on many different doors and you will never achieve anything worthwhile Our days follow the direction that we give to our first thoughts in the morning for depending on whether we are mindful or not we either clear the way ahead or litter it with all kinds of useless and even dangerous debris Disciples of initiatic science know how to begin the day so that it may be fruitful and rich in God's grace and so that they may share that grace with those around them They understand how important it is to begin the day with one fundamental thought around which all the other thoughts of the day may revolve If you keep your sights fixed on a definite goal a clear orientation an ideal all your activities will gradually organize themselves and fall into line in such a way as to contribute to the realization of that ideal Even the negative or alien thoughts or feelings that attempt to infiltrate you will be deflected and put at the service of the divine world

Yes even they will be forced to follow the direction you have chosen In this way thanks to the fundamental thought that you place in your head and your heart first thing in the morning your whole day will be recorded in the book of life And since everything we do is recorded once you have lived one glorious day one day of eternal life not only will that day be recorded not only will it never die but it will endeavor to get the days that follow to imitate it Try to live just one day as well as you possibly can therefore and it will influence all your days it will persuade them to listen to its testimony and follow its example so as to be well balanced orderly and harmonious      **Daily Meditations 2021** Omraam Mikhaël Aïvanhov,2020-11-30 Every morning before you do anything else you must give yourself a few quiet moments of reflection so as to begin your day in peace and harmony and unite yourself to the Creator by dedicating the new day to Him through prayer meditation It is the beginning that is all important for it is then at the beginning that new forces are set in motion and given direction If we want to act wisely and well we have to begin by casting some light on the situation You do not look for something or start work in the dark you start by lighting a lamp so that you can see what you are doing And you can apply the same principle to every area in life in order to know what to do and how to do it you have to switch on the light in other words to concentrate and look into yourself Without this light you will wander in all directions and knock on many different doors and you will never achieve anything worthwhile Our days follow the direction that we give to our first thoughts in the morning for depending on whether we are mindful or not we either clear the way ahead or litter it with all kinds of useless and even dangerous debris Disciples of initiatic science know how to begin the day so that it may be fruitful and rich in God's grace and so that they may share that grace with those around them They understand how important it is to begin the day with one fundamental thought around which all the other thoughts of the day may revolve If you keep your sights fixed on a definite goal a clear orientation an ideal all your activities will gradually organize themselves and fall into line in such a way as to contribute to the realization of that ideal Even the negative or alien thoughts or feelings that attempt to infiltrate you will be deflected and put at the service of the divine world Yes even they will be forced to follow the direction you have chosen In this way thanks to the fundamental thought that you place in your head and your heart first thing in the morning your whole day will be recorded in the book of life And since everything we do is recorded once you have lived one glorious day one day of eternal life not only will that day be recorded not only will it never die but it will endeavor to get the days that follow to imitate it Try to live just one day as well as you possibly can therefore and it will influence all your days it will persuade them to listen to its testimony and follow its example so as to be well balanced orderly and harmonious      **International Books in Print** ,1986

**Daily Meditations** Omraam Mikhaël Aïvanhov,2002-06      **Sunrise Meditations** Omraam Mikhaël Aïvanhov,2012-12-12 There are spiritual foods just as there are material foods in the same way that you eat bread and drink water each day to feed your physical body you must nourish yourself with the sun its warmth its light so as to nourish your spiritual bodies In this way you will become truly alive So try every morning to watch the sunrise as if you were seeing it for

the first time and it will always appear new to you Omraam Mikhaël Aïvanhov *Daily Meditations 2025* Omraam Mikhaël Aïvanhov, 2024-11-14 Every morning before you do anything else you must give yourself a few quiet moments of reflection so as to begin your day in peace and harmony and unite yourself to the Creator by dedicating the new day to Him through prayer meditation It is the beginning that is all important for it is then at the beginning that new forces are set in motion and given direction If we want to act wisely and well we have to begin by casting some light on the situation You do not look for something or start work in the dark you start by lighting a lamp so that you can see what you are doing And you can apply the same principle to every area in life in order to know what to do and how to do it you have to switch on the light in other words to concentrate and look into yourself Without this light you will wander in all directions and knock on many different doors and you will never achieve anything worthwhile Our days follow the direction that we give to our first thoughts in the morning for depending on whether we are mindful or not we either clear the way ahead or litter it with all kinds of useless and even dangerous debris Disciples of initiatic science know how to begin the day so that it may be fruitful and rich in God's grace and so that they may share that grace with those around them They understand how important it is to begin the day with one fundamental thought around which all the other thoughts of the day may revolve If you keep your sights fixed on a definite goal a clear orientation an ideal all your activities will gradually organize themselves and fall into line in such a way as to contribute to the realization of that ideal Even the negative or alien thoughts or feelings that attempt to infiltrate you will be deflected and put at the service of the divine world Yes even they will be forced to follow the direction you have chosen In this way thanks to the fundamental thought that you place in your head and your heart first thing in the morning your whole day will be recorded in the book of life And since everything we do is recorded once you have lived one glorious day one day of eternal life not only will that day be recorded not only will it never die but it will endeavor to get the days that follow to imitate it Try to live just one day as well as you possibly can therefore and it will influence all your days it will persuade them to listen to its testimony and follow its example so as to be well balanced orderly and harmonious Omraam

**Daily Meditations 2024** Omraam Mikhaël Aïvanhov, 2023-11-28 22 June You want life to be

smooth and pleasant without problems or unhappiness But why don't you ask yourself about the underlying meaning of the obstacles that exist in nature and in life instead If the path up a high mountain were smooth you would never be able to climb to the top in order to breathe the pure air and admire the beautiful view because you would have nothing to cling to You would keep sliding down to the bottom of the precipice This is what happens to those whose life is too easy too comfortable they lose their grip on life as well as on their fortune their health even their sanity Since you are climbing up the slopes of a spiritual mountain do not ask that they be smooth Be grateful for the rough edges for it is they that give you a handhold and enable you to keep advancing towards the light **Daily Meditations 2015**, 2014 Daily Meditations Omraam Mikhael
