The Decline of Public Access and Neo-Liberal Media Regimes Brian Caterino, 2020-04-28 This book examines the reasons behind the declining fortunes of public access channels Public access which provided perhaps the boldest experiment in popular media democracy is in steep decline While some have argued it is technologically outmoded Caterino argues that the real reason lies with the rise of a neo liberal media regime This regime creates a climate in which we can understand these changes This book considers the role of neo liberalism in transforming notions of public obligations and regulation of media that have impacted non profit media specifically public access Neo liberalism has tried to eliminate public forums and public discourse and weakens institutions of civil society Though social media is often championed as an arena of communicative freedom Caterino argues that neo liberalism has created a colonized social media environment that severely limits popular democracy

Reclaiming Popular Documentary Christie Milliken, Steve F. Anderson, 2021-07-06 The documentary has achieved rising popularity over the past two decades thanks to streaming services like Netflix and Hulu Despite this documentary studies still tends to favor works that appeal primarily to specialists and scholars Reclaiming Popular Documentary reverses this long standing tendency by showing that documentaries can be and are made for mainstream or commercial audiences Editors Christie Milliken and Steve Anderson who consider popular documentary to be a subfield of documentary studies embrace an expanded definition of popular to acknowledge the many evolving forms of documentary such as branded entertainment fictional hybrids and works with audience participation Together these essays address emerging documentary forms including web docs virtual reality immersive journalism viral media interactive docs and video on demand and offer the critical tools viewers need to analyze contemporary documentaries and consider how they are persuaded by and represented in documentary media By combining perspectives of scholars and makers Reclaiming Popular Documentary brings new understandings and international perspectives to familiar texts using critical models that will engage media scholars and fans alike

Decolonizing Media Education Through Body and Performance Alexis Romero Walker, 2025-12-31 This book explores the ways in which educators in media programs at colleges and universities can work

toward decolonizing the curriculum and implementing necessary practices of media literacy to help students become more responsible media practitioners Taking an autoethnographic approach and reflecting on their experiences as a student and educator with an intersectional identity the author proposes that for media education to instil positive change in the media industry there must be a more direct objective of decolonizing media education Looking specifically at how media education programs lack an understanding of how to make their courses more equitable they propose an ambitious start to decolonize media education by dismantling current classroom norms and rebuilding from the perspective of performance as it is connected to the bodies of those in the classroom and the field we can build a critical media literacy framework to make education equitable This insightful book will support media educators in higher education as well as k 12 media educators instructional designers and media researchers

Community Media Kevin Howley,2005-04-07 While transnational conglomerates consolidate their control of the global mediascape local communities struggle to create democratic media systems This groundbreaking study of community media first published in 2005 combines original research with comparative and theoretical analysis in an engaging and accessible style Kevin Howley explores the different ways in which local communities come to make use of various technologies such as radio television print and computer networks for purposes of community communication and considers the ways these technologies shape and are shaped by the everyday lived experience of local populations He also addresses broader theoretical and philosophical issues surrounding the relationship between communication and community media systems and the public sphere Case studies illustrate the pivotal role community media play in promoting cultural production and communicative democracy within and between local communities This book will make a significant contribution to existing scholarship in media and cultural studies on alternative participatory and community based media

Blue-Collar Pop Culture M. Keith Booker,2012-03-09 From television film and music to sports comics and everyday life this book provides a comprehensive view of working class culture in America The terms blue collar and working class remain incredibly vague in the United States especially in pop culture where they are used to express and connote different things at different times Interestingly most Americans are in reality members of the working class even if they do not necessarily think of themselves that way Perhaps the popularity of many cultural phenomena focused on the working class can be explained in this way we are endlessly fascinated by ourselves *Blue Collar Pop Culture* From NASCAR to Jersey Shore provides a sophisticated accessible and entertaining examination of the intersection between American popular culture and working class life in America Covering topics as diverse as the attacks of September 11th union loyalties religion trailer parks professional wrestling and Elvis Presley the essays in this two volume work will appeal to general readers and be valuable to scholars and students studying American popular culture

Micro Radio and the FCC Andy Opel,2004-05-30 Micro Radio became a lightening rod for the emerging Media Activism and Reform Movement Like the environmental movement in the 1960s and 70s that focused on specific issues like nuclear power the Media Activism Movement discovered a significant formative issue in micro radio at the turn of the millennium This book is a close examination of the struggle over micro radio Throughout this research micro radio is viewed as a site of social activity a unique cultural and historical bond where ideas about the relationship between media and democracy are explored This work is the first to spotlight this emerging social movement and uses critical historical analysis to provide a description of it The information in this book shows the struggle over micro radio as the most recent manifestation of a growing social movement a movement of media activism and reform As local people took to the airwaves illegally broadcasting the frivolous to the serious theoretical concepts such as localism and public access suddenly became grounded in a real world radio show Micro radio broadcasters were able to demonstrate what is left out of most mainstream media They showed what could happen when a diverse public is allowed to access the most universal telecommunications of the day This look at micro radio will be valuable to communications students who are interested in the strategies behind media and social movements alternative media and news media practices *Feminist Bookstore News* ,1999 *Media and American Studies in the EFL-Classroom* Jürgen Donnerstag,Laurenz Volkmann,2008 The growing interest in working with media particularly the new digital media in the EFL classroom is reflected in the ten articles of this volume Their focus is specifically on traditional visual media such as films and video clips but also on blogs podcasts digital storytelling hyperfictions Internet projects creating learner software etc As the articles either explicitly or implicitly indicate these new media formats are suitable for integration into current action or task based teaching forms All articles aim to foster nuanced

judgments on literature culture and popular media in the US The media discussed here mirror the multiplicity of voices within the US indicating the tremendous variety of cultural and political positions They undermine lopsided and biased attitudes toward American mass media forcing the learner to discuss critical positions within the US and to modify stereotypical media judgements Dispositio ,2000 International Documentary ,2000 **Bookforum** ,1998
