**The Liberal Script at the Beginning of the 21st Century** Tanja A. Börzel, Johannes Gerschewski, Michael Zürn, 2024-10-10 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations. 21st century liberalism is being contested on multiple fronts and by a wide range of actors. To understand these challengers it is important to have a better grasp of their common target. This book introduces the liberal script as an analytical concept that allows us to analyze and problematize liberal thinking as well as its different components and linkages and the tensions that they produce. What happens when the pursuit of market efficiency is incompatible with social justice? It is these tensions between the different components of the liberal script that are at the heart of the challenges against it. Different societies have resolved these tensions in different ways leading to a variety of liberal subscripts and their contestations. The volume integrates theoretical and methodological perspectives from different disciplines including political science, sociology, law, history, philosophy, post colonial studies and educational science. In demonstrating the theoretical and empirical added value of using the concept of liberal script, the volume presents a multifaceted and nuanced picture of what is at stake in the challenges to liberalism in the early 21st century. This volume has emerged from research carried out as part of the Cluster of Excellence Contestations of the Liberal Script (SCRIPTS) which analyzes the contemporary controversies about liberal ideas, institutions and practices on the national and international level from a historical, global and comparative perspective. It connects academic expertise in the social sciences and area studies and collaborates with research institutions in all world regions. Operating since 2019 and funded by the German Research Foundation (DFG), SCRIPTS unites eight major Berlin-based research institutions: Freie Universität Berlin, the Humboldt Universität zu Berlin, the Berlin Social Science Center (WZB), the Hertie School, the German Institute for Economic Research (DIW), the Berlin branch of the German Institute of Global and Area Studies (GIGA), the Centre for East European and International Studies (ZOiS) and the Leibniz Zentrum Moderner Orient (ZMO).
