United States Code United States, 2018 Proceedings of the Future Technologies Conference (FTC) 2025, Volume 4
Kohei Arai, 2025-10-28 This book aims to provide a comprehensive reference for the research community and practitioners engaged in future technologies The Future Technologies Conference FTC 2025 was held on 6-7 November 2025 in Munich Germany bringing together researchers academics and industry professionals to present and discuss advances in various technology areas The conference encompassed topics such as Technology Trends Artificial Intelligence Computer Vision Data Science Computing Ambient Intelligence Security and e Learning A total of 485 papers were submitted and following a thorough peer review process 175 papers were accepted for publication These proceedings include contributions that highlight both foundational research and practical applications in emerging technologies Advances in Information and Communication
Kohei Arai, 2024-03-16 The book is a valuable collection of papers presented in the Future of Information and Communications Conference FICC conducted by Science and Information Organization on 4-5 April 2024 in Berlin It received a total of 401 paper submissions out of which 139 are published after careful double blind peer review Renowned and budding scholars academics and distinguished members of the industry assembled under one roof to share their breakthrough research providing answers to many complex problems boggling the world The topics fanned across various fields involving Communication Data Science Ambient Intelligence Networking Computing Security and Privacy **United States Economist, and Dry Goods Reporter**, 1916 **Code of Federal Regulations**, 1974 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries **Algorithms of Armageddon** George Galdorisi, Sam J Tangredi, 2024-03-12 It is unclear if U S policy makers and military leaders fully realize that we have already been thrust into an artificial intelligence AI race with authoritarian powers Today the United States peer adversaries China and Russia have made clear their intentions to make major investments in AI and insert this technology into their military systems sensors and weapons Their goal is to gain an asymmetric advantage over the U S military The implications for our national security are many and complex Algorithms of Armageddon examines this most pressing security issue in a clear insightful delivery by two experts Authors George Galdorisi and Sam J Tangredi are national security professionals who deal with AI on a day to day basis in their work in both the technical and policy arenas Opening chapters explain the fundamentals of what constitutes big data machine learning and artificial intelligence They investigate the convergence of AI with other technologies and how these systems will interact with humans Critical to the issue is the manner by which AI is being developed and utilized by Russia and China The central chapters of the work address the weaponizing of AI through interaction with other technologies man machine teaming and autonomous weapons systems The authors cover in depth debates surrounding the AI genie out of the bottle controversy AI arms races and the resulting impact on policy and the laws of war Given that global powers are leading large scale development of AI it is likely that use of this

technology will be global in extent Will AI enabled military weapons systems lead to full scale global war Can such a conflict be avoided The later chapters of the work explore these questions point to the possibility of humans failing to control military AI applications and conclude that the dangers for the United States are real Neither a protest against AI nor a speculative work on how AI could replace humans Algorithms of Armageddon provides a time critical understanding of why AI is being implemented through state weaponization the realities for the global power balance and more importantly U S national security Galdorisi and Tangredi propose a national dialogue that focuses on the need for U S military to have access to the latest AI enabled technology in order to provide security and prosperity to the American people
