Discours Dernier Vers:

Less Rightly Said Antonia Szabari, 2009-10-23 Well known scholars and poets living in sixteenth century France including Erasmus Ronsard Calvin and Rabelais promoted elite satire that corrected vices but spared the person yet this period torn apart by religious differences also saw the rise of a much cruder personal satire that aimed at converting readers to its ideological religious and increasingly political ideas By focusing on popular pamphlets along with more canonical works Less Rightly Said shows that the satirists did not simply renounce the moral ideal of elite humanist scholarship but rather transmitted and manipulated that scholarship according to their ideological needs Szabari identifies the emergence of a political genre that provides us with a more thorough understanding of the culture of printing and reading of the political function of invectives and of the general role of dissensus in early modern French society Simple questions d'explications d'auteurs formulées sur 35 morceaux de littérature facile Camille Breyre, 1887 *Revue de philologie, de littérature et d'histoire anciennes* Léon Renier, Édouard Tournier, Louis Havet, Charles Henri Graux, Charles Thurot, Othon Riemann, Emile Chatelain, Louis Léon Duvau, Bernard Haussoullier, Pierre Jouguet, Alfred Ernout, 1877 *To honor Roman Jakobson : essays on the occasion of his 70. birthday, 11. LaGuardia, 2015-04-28 Memory and Community in Sixteenth Century France engages the question of remembering from a number of different perspectives It examines the formation of communities within diverse cultural religious and geographical contexts especially in relation to the material conditions for producing texts and discourses that were the foundations for collective practices of memory The Wars of Religion in France gave rise to numerous narrative and graphic representations of bodies remembered as icons and signifiers of the religious troubles The multiple sites of these clashes

were filled with sound language and diverse kinds of signs mediated by print writing and discourses that recalled past battles and opposed different factions The volume demonstrates that memory and community interacted constantly in sixteenth century France producing conceptual frames that defined the conflicting groups to which individuals belonged and from which they derived their identities The ongoing conflicts of the Wars hence made it necessary for people both to remember certain events and to forget others As such memory was one of the key ideas in a period defined by its continuous reformulations of the present as a forum in which contradictory accounts of the recent past competed with one another for hegemony One of the aims of *Memory and Community in Sixteenth Century France* is to remedy the lack of scholarship on this important memorial function which was one of the intellectual foundations of the late French Renaissance and its fractured communities
