Discourses In Search Of Members In Honor Of Ron Scollon:

Discourses in Search of Members Ronald Scollon, 2002-03-04 *Discourses in Search of Members* is a festschrift in honor of Professor Ron Scollon on the occasion of his sixtieth birthday in May 1999. The 25 contributions, which vary from conventional research-based articles to essays to poetic genres, all reflect the significant scholarly influence Professor Ron Scollon has had on his students and colleagues. The contributors come from various regions including Finland, Australia, Japan, and the UK and truly represent an international community.

Approaches to Discourse Analysis Cynthia Gordon, 2021 In this groundbreaking collection, scholars within the field of linguistics and beyond offer discourse analyses in multiple languages, contexts, and modes, demonstrating the importance of the diverse perspectives that various approaches to discourse bring to bear on human communication.

Engaging and Transforming Global Communication through Cultural Discourse Analysis Trudy Milburn, Michelle Scollo, 2018-11-13 Global communication can be difficult in the best of circumstances. The contributors in this book take seriously the premise that one can examine communication within specific global settings and scenes with the goal of ensuring that the meanings made among those within specific communities are more clearly understood. This includes recognizing that we often communicate based on specific assumptions and act in ways that have normative bases that are shared with those within communities but are often difficult to discern or navigate by those who are not members of them. Situated within the Ethnography of Communication research program, the contributors in this volume use Cultural Discourse Analysis to examine such practices, a theory and methodology developed by Donal Carbaugh over the past thirty years. The book is a celebration of his work and career in which forty-four prominent Communication scholars and practitioners come together to use this framework to examine pressing communication issues across the globe. The book includes a preface by Gerry Philipsen that is an academic history of Carbaugh's career, an introduction outlining the history and current practice of Cultural Discourse Analysis, sixteen data-based chapters using the framework to examine a broad range of intercultural communication practices across the globe, and an epilogue by Carbaugh reviewing this research and its future trajectory. The book is a handbook of Cultural Discourse Analysis for examining the latest in Cultural Discourse Analysis research and learning how to do such work that will be useful to advanced undergraduate and graduate students in a broad range of fields, intercultural communication scholars, and all those who seek to better understand and communicate in the global world today.

Genre Changes and Privileged Pedagogic Identity in Teaching Contest Discourse Ning Liu, Derek Irwin, 2017-01-20 This book analyzes how the English as a Second Language (ESL) pedagogic genre has been re-contextualized in the Shanghai Foreign Language Education Press National College English Teaching Contest (SFLEP) for presentation to the contest judges and audience. Departing from prior research on contest discourse, it focuses on the role of teaching contests in re-contextualizing educational practices. Moreover, it addresses the processes of genre blurring and solidification at work in new discourse events. The results presented here

serve to frame teaching contest discourse in a fuller contextual configuration and will help contest sponsors participants and audience members better understand this popular social event and its relations to real world teaching practices while simultaneously helping teachers to understand the relevance of such contest practice Moreover the research methods will benefit those linguists who are interested in researching other types of event discourses **Bridging Cultural Concepts**

children's ability to learn. Or can English be introduced and taught in such a way that it can complement local languages rather than replace them? The aim of this book is to explore questions such as these and then make recommendations on language policy and language education for regional policymakers. The book will be important for regional policymakers and language education professionals. It should also benefit language teachers, especially but by no means exclusively English language teachers. The book will be of interest to all who are interested in the development of English as an international language and the possible implications of this upon local languages and cultures.
