## **Discoverie Of The Large Bewtiful Empir:**

**Sir Walter Raleigh's Discoverie of Guiana** Sir Walter Raleigh, 2006 Sir Walter Raleigh's account of his 1595 expedition in search of the fabled empire of El Dorado was an immediate publishing success and is one of the most important pieces of Elizabethan travel literature. This edition presents the annotated texts of an unpublished copy of Raleigh's draft of *The Discoverie of the Large Rich and Bewtiful Empyre of Guiana* and the subsequent printed versions. It demonstrates how the manuscript was altered for publication to focus its appeal to investors in gold mines for which Raleigh had very little evidence.

**Encyclopedia of British Writers, 16th, 17th, and 18th Centuries** Book Builders LLC., 2005 Presents a two volume A to Z reference on English authors from the sixteenth, seventeenth and eighteenth centuries providing information about major figures, key schools and genres, biographical information, author publications and some critical analyses.

**The Marvels of the World** Rebecca Bushnell, 2021-03-12 Long before the Romantics embraced nature, people in the West saw the human and nonhuman worlds as both intimately interdependent and violently antagonistic. With its peerless selection of ninety-eight original sources concerned with the natural world and humankind's place within it, *The Marvels of the World* offers a corrective to the still prevalent tendency to dismiss premodern attitudes toward nature as simple or univocal. Gathering together medical texts, herbals, and how-to books as well as scientific, religious, philosophical, and poetic works dating from antiquity to the dawn of the Enlightenment, the anthology explores both mainstream and unconventional thinking about the natural world. Its seven parts focus on philosophy and science, plants, animals, weather, and climate, ways of inhabiting the land, gardens and gardening, and European encounters with the wider world. Each section, and each of the book's selections, is prefaced with a helpful introduction by volume editor Rebecca Bushnell that weaves connections among these compelling pieces of the past. The early writers collected here wrote with extraordinary openness about ways of coexisting with the nonhuman forces that shaped them. Bushnell demonstrates even as they sought to control and exploit their environment. Taken as a whole, *The Marvels of the World* reveals how many of these early writers cared as much about the natural world as we do today.
