Global Gothic Barbara Borngässer, Bruno Klein, 2022-02-17 Gothic style and contemporary architecture worldwide Although largely overlooked in studies of architectural history church architecture in a Gothic idiom outlived its 19th century momentum to persist worldwide throughout the 20th century and into the new millennium *Global Gothic* presents a first systematic worldwide understanding of Gothic in contemporary architecture both as a distinct variation and as a competitor to recognized modern styles The book's chapters critically

discuss Gothic's various manifestations over the past century describing and illustrating approaches from Gothic Revival living traditions in the former British Empire and original Gothic appropriation in Latin America to competitions of European builders in former Asian and African colonies The focus is also on the special appropriations in North America China and Japan as well as contemporary solutions that tend to be transnational in style With contributions from renowned architecture experts from around the world *Global Gothic* provides an overview of this cultural phenomenon and presents a wealth of stunning material much of it little known Richly illustrated in full color it offers an important contribution to colonial and postcolonial global art history and a seldom acknowledged perspective on art history in general Contributors Barbara Borns Technische Universität Dresden Mart n M Checa Artasu Metropolitan Autonomous University Mexico City Thomas Coomans KU Leuven Pedro Guedes University of Queensland Bruno Klein Technische Universität Dresden Bettina Marten Technische Universität Dresden Olimpia Niglio Hosei University Tokyo Peter Scriver University of Adelaide Amit Srivastava University of Adelaide This publication is GPRC labeled Guaranteed Peer Reviewed Content
