## Discovering The Mind:

**Discovering the Mind: Freud versus Adler and Jung** Walter Kaufmann, 1980      *Goethe, Kant, and Hegel* Walter Kaufmann, 2017-07-12 This immensely readable and absorbing book the first of a three volume series on understanding the human mind concentrates on three major figures who have changed our image of human beings Kaufmann drastically revises traditional conceptions of Goethe Kant and Hegel showing how their ideas about the mind were shaped by their own distinctive mentalities Kaufmann's version of psychohistory stays clear of gossip and is carefully documented He offers us a radically new understanding of two centuries of intellectual history but his primary focus is on self knowledge He is in a unique position to perform this task by virtue of being according to Stephen Spender the best translator of Faust and in Sidney Hook's view unquestionably the most interesting and informative writer of Hegel in English The foremost interpreter of Kant Lewis White Beck has called this book on Goethe Kant and Hegel fascinating a work which will stir up a good many people by telling them things they have never heard and providing an alternative to what is the accepted reading of that part of the history of philosophy The story of how personality affects philosophy has never been better told We are shown how Goethe advanced the discovery of the mind more than anyone before him while Kant was in many ways a disaster Hegel like others between 1790 to 1990 tried to reconcile Kant and Goethe Kaufmann shows this is impossible He paints a large picture but he is always highly specific and details the major contributions of Goethe and Hegel as well as the ways in which Kant's immense influence proved catastrophic      Discovering the Mind: Goethe, Kant, and Hegel Walter Arnold Kaufmann, 1980 Reprint Originally published New York McGraw Hill 1980      Freud, Adler, and Jung Walter Kaufmann, 2017-10-02 Walter Kaufmann completed this the third and final volume of his landmark trilogy shortly before his death in 1980 The trilogy is the crowning achievement of a lifetime of study writing and teaching This final volume contains Kaufmann's tribute to Sigmund Freud the man he thought had done as much as anyone to discover and illuminate the human mind Kaufmann's own analytical brilliance seems a fitting reflection of Freud's and his acute commentary affords fitting company to Freud's own thought Kaufmann traces the intellectual tradition that culminated in Freud's blending of analytic scientific thinking with humanistic insight to create a poetic science of the mind He argues that despite Freud's great achievement and celebrity his work and person have often been misunderstood and unfairly maligned the victim of poor translations and hostile critics Kaufmann dispels some of the myths that have surrounded Freud and damaged his reputation He takes pains to show how undogmatic how open to discussion and how modest Freud actually was Kaufmann endeavors to defend Freud against the attacks of his two most prominent apostate disciples Alfred Adler and Carl Gustav Jung Adler is revealed as having been jealous hostile and an ingrate a muddled thinker and unskilled writer and remarkably lacking in self understanding Jung emerges in Kaufmann's depiction as an unattractive petty and envious human being an anti Semite an obscure and obscurantist thinker and like Adler lacking insight into himself Freud on the contrary is argued to have displayed great

nobility and great insight into himself and his wayward disciples in the course of their famous fallings out     Discovering the Mind: Freud, Adler, and Jung Walter Arnold Kaufmann,1991     Discovering the Mind Walter Arnold Kaufmann,
