## **Discovering The Mind Vol 1 Goethe Kant And Hegel:**

**Goethe, Kant, and Hegel** Walter Kaufmann, 2017-07-12 This immensely readable and absorbing book the first of a three volume series on understanding the human mind concentrates on three major figures who have changed our image of human beings Kaufmann drastically revises traditional conceptions of Goethe Kant and Hegel showing how their ideas about the mind were shaped by their own distinctive mentalities Kaufmann's version of psychohistory stays clear of gossip and is carefully documented He offers us a radically new understanding of two centuries of intellectual history but his primary focus is on self knowledge He is in a unique position to perform this task by virtue of being according to Stephen Spender the best translator of Faust and in Sidney Hook's view unquestionably the most interesting and informative writer of Hegel in English The foremost interpreter of Kant Lewis White Beck has called this book on Goethe Kant and Hegel fascinating a work which will stir up a good many people by telling them things they have never heard and providing an alternative to what is the accepted reading of that part of the history of philosophy The story of how personality affects philosophy has never been better told We are shown how Goethe advanced the discovery of the mind more than anyone before him while Kant was in many ways a disaster Hegel like others between 1790 to 1990 tried to reconcile Kant and Goethe Kaufmann shows this is impossible He paints a large picture but he is always highly specific and details the major contributions of Goethe and Hegel as well as the ways in which Kant's immense influence proved catastrophic **Goethe, Kant, and Hegel** Walter Arnold

Kaufmann, 1991 Discovering the Mind: Goethe, Kant, and Hegel Walter Arnold Kaufmann, 1980 Reprint Originally published New York McGraw Hill 1980 Walter Kaufmann Stanley Corngold, 2018-12-11 The first complete account of the ideas and writings of a major figure in twentieth century intellectual life Walter Kaufmann 1921 1980 was a charismatic philosopher critic translator and poet who fled Nazi Germany at the age of eighteen emigrating alone to the United States He was astonishingly prolific until his untimely death at age fifty nine writing some dozen major books all marked by breathtaking erudition and a provocative essayistic style He single handedly rehabilitated Nietzsche's reputation after World War II and was enormously influential in introducing postwar American readers to existentialism Until now no book has examined his intellectual legacy Stanley Corngold provides the first in depth study of Kaufmann's thought covering all his major works He shows how Kaufmann speaks to many issues that concern us today such as the good of philosophy the effects of religion the persistence of tragedy and the crisis of the humanities in an age of technology Few scholars in modern times can match Kaufmann's range of interests from philosophy and literature to intellectual history and comparative religion from psychology and photography to art and architecture Corngold provides a heartfelt portrait of a man who to an extraordinary extent transfigured his personal experience in the pages of his books This original study both appreciative and critical is the definitive intellectual life of one of the twentieth century's most engaging yet neglected thinkers It will introduce Kaufmann to a new generation of readers and serves as a fitting tribute to a scholar's incomparable libido sciendi or lust for knowledge

Stephenson, 1995 This study is the first to examine in detail the cultural significance of Goethe's scientific work It explores the subtle distinctions he made between the Amateur and the Expert and the interplay between Enlightenment science and Romanticism's Nature Philosophy and attempts to set Goethe's thinking into the context he consistently evoked of the preceding three millennia of scientific thought Analysing his complex perception of the cultural centrality of aesthetics worked out in collaboration with his friend and fellow writer Schiller the study concludes that Goethe's modes of thought differed from both the Enlightenment and the Romantic traditions prefiguring the process thinkers of the twentieth century      Library Journal Book Review 1980 Jaques Cattell Press, 1983-06      *Discovering the Mind: Freud versus Adler and Jung* Walter Kaufmann, 1980      *German Essays on Religion: K.
