[The Lost Colonies of Ancient America](#) Frank Joseph,2013-10-21 Was America truly unknown to the outside world until Christopher Columbus discovered it in 1492 Could a people gifted enough to raise the Great Pyramid more than 4 000 years ago have lacked the skills necessary to build a ship capable of crossing the Atlantic Did the Phoenicians who circumnavigated the African continent in 600 bc never consider sailing farther Were the Vikings the most fearless warriors and seafarers of all time terrified at the prospect of a transoceanic voyage If so how are we to account for an Egyptian temple accidentally unearthed by Tennessee Valley Authority workers in 1935 What is a beautifully crafted metal plate with the image of a Phoenician woman doing in the Utah desert And who can explain the discovery of Viking houses and wharves excavated outside of Boston These enigmas are but a tiny fraction of the abundant physical proof for Old World visitors to our continent hundreds and thousands of years ago In addition Sumerians Minoans Romans Celts ancient Hebrews Indonesians Africans Chinese Japanese Welsh Irish and the Knights Templar all made their indelible if neglected mark on our land

The Black Discovery of America Michael Bradley,1981 *Spiritual Turning Points of North American History* Luigi Morelli,2010-10 This introduction to modern Indian thought establishes the historical context in which Indian thinkers of the past century developed their ideas showing how those ideas comprise a coherent vision that is both Indian and contemporary The Spirit of Modern India offers a full treatment of these ideas in an intelligible and concise approach and format Despite a growing interest in Indian thought and life the best writings of major twentieth century thinkers have not been well presented within their cultural framework This is the first single volume to offer such a wide representation of India s experience and scholarship through traditional and contemporary strains as articulated by her

greatest modern thinkers The period designated modern refers to the remarkable century between the mid 1800s and the mid 1900s The Spirit of Modern India includes writings by Sri Ramakrishna Vivekananda Tagore Gandhi Nehru Radhakrisnan and Sri Aurobindo These writings are arranged according to each era of Indian thought and culture philosophy religion ethics education esthetics and national vision Each is introduced to illuminate the material and put the selections into their historical and cultural context A chronology lists important dates and works of major authors and dates related to Indian and Western intellectual history A glossary of important names and terms makes the more technical selections readily accessible The bibliography will guide the reader to further reading The Spirit of Modern India provides a valuable service to those who wish to better understand India and its modern roots
