Discovery Programme Reports 2 Project Results 1993:

The Archaeology of Celtic Art D.W. Harding, 2007-06-11 More wide ranging both geographically and chronologically than any previous study this well illustrated book offers a new definition of Celtic art Tempering the much adopted art historical approach D W Harding argues for a broader definition of Celtic art and views it within a much wider archaeological context He re asserts ancient Celtic identity after a decade of deconstruction in English language archaeology Harding argues that there were communities in Iron Age Europe that were identified historically as Celts regarded themselves as Celtic or who spoke Celtic languages and that the art of these communities may reasonably be regarded as Celtic art This study will be indispensable for those people wanting to take a fresh and innovative perspective on Celtic Art **Iron Age Hillforts in**

Britain and Beyond Dennis Harding, 2012-12-06 Widely regarded as major visible field monuments of the Iron Age hillforts are central to an understanding of later prehistoric communities in Britain and Europe from the later Bronze Age With such a range of variants represented no single explanation of their function or social significance could satisfy all possible interpretations of their role While they are conventionally viewed as defence settlements or regional centres controlled by a social elite this role has been challenged in recent years and instead hillforts are being considered primarily as expressions of social identity with strong ritual and cosmological associations Current hillfort interpretations are in danger of reflecting contemporary social sensitivities more strongly than any recognizable Iron Age priorities and the need for critical analysis of basic archaeological evidence is paramount Critically reviewing the evidence of hillforts in Britain in the wider context of Ireland and continental Europe the volume focuses on their structural features chronology landscape context and their social economic and symbolic functions and is well illustrated throughout with site plans reconstruction drawings and photographs Harding reviews the changing perceptions of hillforts and the future prospects for hillfort research highlighting aspects of contemporary investigation and interpretation **The Archaeology of Celtic Britain and Ireland** Lloyd Robert

Laing, 2006-06-29 This book first published in 2006 surveys the archaeology of the Celtic speaking areas of Britain and Ireland AD 400 to 1200 The Origins of the Irish J. P. Mallory, 2013-04-01 An essential new history of ancient Ireland and the Irish written as an engrossing detective story About eighty million people today can trace their descent back to the occupants of Ireland But where did the occupants of the island themselves come from and what do we even mean by Irish in the first place This is the first major attempt to deal with the core issues of how the Irish came into being J P Mallory emphasizes that the Irish did not have a single origin but are a product of multiple influences that can only be tracked by employing the disciplines of archaeology genetics geology linguistics and mythology Beginning with the collision that fused the two halves of Ireland together the book traces Ireland's long journey through space and time to become an island The origins of its first farmers and their monumental impact on the island is followed by an exploration of how metallurgists in copper bronze and iron brought Ireland into increasingly wider orbits of European culture Assessments of traditional

explanations of Irish origins are combined with the very latest genetic research into the biological origins of the Irish

Cattle in Ancient and Modern Ireland Fergus Kelly, James H. McAdam, Michael O'Connell, 2016-04-26 Cattle have been the mainstay of Irish farming since the Neolithic began in Ireland almost 6000 years ago Cattle and especially cows have been important in the life experiences of most Irish people directly and or through legends such as the T in B Cuailnge The Cattle raid of Cooley In this book diverse aspects of cattle in Ireland from the circumstances of their first introduction to recent and ongoing developments in the management of grasslands still the main food source for cattle in Ireland are explored in thirteen essays written by experts New information is presented and several aspects relating to cattle husbandry and the interactions of cattle and people that have hitherto received little or no attention are discussed **Bronze Artefact**

Production in Late Bronze Age Ireland Simon Ó Faoláin, 2004 By the late Bronze Age the Irish had become masters in metalworking and the range of objects produced was in stark contrast to those of the earlier Bronze Age This study presents a comprehensive analysis and reconstruction of late Bronze Age metalworking practices through artefactual evidence and also experimental work and ethnography High Island Jenny White Marshall, Grellan D.
