Cancer: disease of civilization? Vilhjalmur Stefansson, 2020-12-24 Vilhjalmur Stefansson has had the extraordinary privilege and the rare merit to know intimately certain segments of the world which will always be strange to most of us He has had the alertness to note details to make correlations which would have escaped others He has been unhampered by professional or even by lay prejudices And he has a gift for expressing the ideas which his observations have evoked The story which he presents in this book is a fascinating one Here is the sort of thing we call basic research just as much so as if it were being conducted in the latest of laboratories Here are the data from a series of experiments which Nature has performed for us in the Arctic northland in the tropic forests of Gabon and in the temperate valley of Hunzaland She has varied a series of environmental factors yet come up with a like result in the three places and a result which she has produced so far as we know only in those three special combinations of environments not in any other of her myriads of combinations elsewhere What have these three in common that they produce this result so important to us Nature will not repeat those experiments And we will not have another Stefansson to read the data and present them to us I hope therefore that what he has to say will be read carefully and pondered deeply

Diet and the Disease of Civilization Adrienne Rose Bitar, 2018-01-26 Diet books contribute to a 60 billion industry as they speak to the 45 million Americans who diet every year Yet these books don't just tell readers what to eat they offer complete philosophies about who Americans are and how we

should live Diet and the Disease of Civilization interrupts the predictable debate about eating right to ask a hard question what if it s not calories but concepts that should be counted Cultural critic Adrienne Rose Bitar reveals how four popular diets retell the Fall of Man as the narrative backbone for our national consciousness Intensifying the moral panic of the obesity epidemic they depict civilization itself as a disease and offer diet as the one true cure Bitar reads each diet the Paleo Diet the Garden of Eden Diet the Pacific Island Diet the detoxification or detox diet as both myth and manual a story with side effects shaping social movements driving industry and constructing fundamental ideas about sickness and health Diet and the Disease of Civilization unearths the ways in which diet books are actually utopian manifestos not just for better bodies but also for a healthier society and a more perfect world

Framing Disease Charles E. Rosenberg, Janet Lynne Golden, 1992 Many diseases discussed here endstage renal disease rheumatic fever parasitic infectious diseases coronary thrombosis came to be defined redefined and renamed over the course of several centuries As these essays show the concept of disease has also been used to frame culturally resonant behaviors suicide homosexuality anorexia nervosa chronic fatigue syndrome Disease is also framed by public policy as the cases of industrial disability and of forensic psychiatry demonstrate Medical institutions as managers of people with disease come to have vested interests in diagnoses as the histories of facilities to treat tuberculosis or epilepsy reveal Ultimately the existence and conquest of disease serves to frame a society s sense of its own healthiness and to give direction to social reforms
