Disequilibrium Growth Theory An Application Of The Filippov Solution To Economics:

Disequilibrium Growth Theory Charles van Marrewijk, Jos Verbeek, 1993 Static disequilibrium economic theory fails to analyse the dynamic effects of market disequilibrium whereas standard growth theory always assumes markets to be in equilibrium Both shortcomings can be overcome by disequilibrium growth theory A problem arises however because different short term disequilibrium regimes give rise to differential equations The dynamic analysis therefore has to take into consideration the possibility of regime switching Various solutions have been put forward for this problem but they generally do not give unique solutions The method developed by Filippov gives a unique solution that coincides with the classical solution to differential equations in the interior of the regimes This approach has been used in several papers in the past decade This book seeks to fill the gap in the literature on what has been achieved so far **Privatization, Deregulation,**

and the Macroeconomy Peter A. G. van Bergeijk, Robert C. G.
