

Due to global issues concerning **COVID-19** (Coronavirus) more and more workplaces are moving towards working remotely. Switching from working in the office to being remote can be a shock to the system for both management and team members, which is why we wanted to share some quick tips to set your team up for success.

01

Encourage team members to work their 8 hours in one chunk, rather than a couple of hours here and there.

02

Ensure there's team overlap by establishing core hours that everyone works, for example 10am-3pm

03

Video call with cameras on where possible, this reduces the risk of isolation/loneliness

04

Encourage non-work related communication to maintain work relationships

05

Establish regular morning catch ups and afternoon sign offs to keep your team engaged

06

Check in that team members are set up to work from home effectively.

Beginner Remote Work Productivity Ideas For Teachers

Management Communication James S. O'Rourke, 2023-03-30 This new edition of Management Communication is a case based textbook that introduces students to the strategic communication methods that are crucial to master in order for them to develop into effective and ethical managers at all levels of business Effective communication skills are necessary for success in the business world and James O Rourke has written a highly readable book filled with anecdotes and examples to engage students in the learning process This seventh edition includes both classic and new features The strategic approach is integrated throughout the book allowing students to understand how a communicated message affects the business as a whole New case studies provide students with hands on experience of scenarios they will encounter in the real world looking at global companies such as Facebook and Nike Further updates include new content on technology corporate culture and disinformation An ethical thread is woven through the text demonstrating how ethical decision making can be applied in all

aspects of communication Chapters on intercultural communication nonverbal communication and conflict management provide students with the skills to build relationships and influence stakeholders key skills for any manager This text will provide students with a well rounded understanding of management communication and the support material ensures it serves as a complete resource for instructors

Rebound, Grades K-12 Douglas Fisher, Nancy Frey, Dominique Smith, John Hattie, 2021-03-30 For more than a year now we educators have been tested and tested again We've been stretched we've been pulled we've been put through the wringer But now it's time to rebound It's time to bounce back come back better and benefit from the many lessons learned to reignite engagement accelerate learning and move forward with fresh optimism and better systems for schooling Enter Doug Fisher Nancy Frey Dominique Smith and John Hattie whose Distance Learning Playbooks have supported more than a half million educators across pandemic teaching and who are here now to advise you on this next absolutely critical leg of our ongoing journey Complete with tools and strategies prompts and exercises Rebound A Playbook for Rebuilding Agency Accelerating Learning Recovery and Rethinking Schools will help you Address the collective traumas we have experienced during the pandemic and rebuild our sense of agency and self so that we can attribute student success to both teachers and students efforts Evaluate what we have learned about remote teaching and learning to determine what to carry forward and what to leave behind Shift the narrative from learning loss to learning leaps and implement instructional and assessment practices that ensure our students reclaim lost knowledge build skills develop agency and accelerate gains Redefine classrooms learning experiences the ways schools operate and the very idea of schooling itself The greatest travesty that can arise for schools after 2020-21 Doug Nancy Dominique and John write is to rush back to the old normal and learn nothing or little about what worked well That's why this book has focused on rebounding and taking the opportunity to create an even better schooling system one that serves even more students and focuses more on what matters most Let's agree not to reduce the impact that our expectations have on students learning What if we talk about learning leaps instead of learning loss What if we identify where students are in their learning and identify critical content that they must learn now to accelerate their performance in the future And what if we raise our expectations for students rather than lower them Douglas Fisher Nancy Frey Dominique Smith and John Hattie
