**Handbook of Research on Teaching With Virtual Environments and AI** Panconesi, Gianni, Guida, Maria, 2021-02-19. The increasingly pervasive use of digital technology has catapulted society into an interconnected world where the natural boundaries between humankind and machine, virtual and real, individual and community have become less perceptible. As individuals interact with different digital technologies, they must build a digital intelligence which must be further cultivated as it is a key competency for the future of school and work. Digital intelligence includes understanding the mutual strengths between people and technology as well as developing an awareness in the use of digital tools in order to avoid common threats such as cyberbullying, addiction to video games, techno stress, and more. As adolescents continue to engage with virtual reality and 3D virtual worlds where the online and offline overlap and coincide, it is important to build this intelligence as well as utilize these technologies to promote successful learning. The Handbook of Research on Teaching With Virtual Environments and AI explores the new personalized educational opportunities that are available with digital technology and virtual environments that can be used within education. This book focuses on the use of these tools and how to navigate the use of new technologies such as AI and virtual environments for educational practices. While highlighting topics such as virtual worlds, game-based learning, intelligent tutoring, augmented reality, and more, this book is ideal for teachers, administrators, technologists, educational software developers, IT specialists, practitioners, researchers, academicians, and students interested in how virtual environments and AI are being implemented in teaching practices.

**Teaching Made Easy** Kay Mohanna, David Wall, Elizabeth Cottrell, Ruth Chambers, 2023-05-22. The fourth edition of this highly respected book builds on the excellent reputation of its predecessors. Fully revised and updated throughout, it continues to provide essential structure, support, guidance, and tips for both beginning and experienced teachers and their managers, both in the UK and internationally. Pitched at an introductory level.

with an emphasis on practical tips and application of theory rather than focussing heavily on scholarly research its content is designed to be relevant and inclusive to all healthcare disciplines Key points are highlighted by the inclusion of tips from experienced teachers in each chapter while throughout chapters reflect contemporary concepts and key approaches including teaching styles curriculum development e learning virtual learning environments leadership and professionalism Teaching Made Easy 4E will continue to benefit everyone teaching health professionals at all levels from general practitioners and hospital doctors nurses in primary and secondary care and professionals allied to medicine and health service managers and will also support the development of colleagues in new roles such as physician associates FCPs and newer nursing associates
