## ABSTRACT

This study investigates the written discourse performance of grade 11 senior high school students focusing on the development of genre-based instructional materials. The research encompasses a detailed examination of demographic profiles, reading material preferences, and academic strands to provide a comprehensive understanding of their backgrounds. A quantitative approach was employed, collecting position papers from 258 students across various schools. Data analysis involved descriptive statistics and inferential tests to assess levels of written discourse performance and identify key factors influencing discourse competence. Findings reveal notable challenges in students' performance, particularly in organization and the use of transitional signals. A significant proportion of students demonstrated deficiencies in these areas, highlighting the need for targeted interventions in writing instruction. The study also underscores the impact of students' reading habits on their writing proficiency, emphasizing the beneficial role of diverse reading materials such as journals and literary works. Gender-based analysis indicates an equitable distribution of writing abilities between male and female students, suggesting inclusive instructional strategies effectively support learners. The study concludes by proposing genre-based instructional materials aligned with students' reading preferences and academic contexts. These materials aim to address identified deficiencies in written discourse performance and enhance overall language proficiency.

## **Discourse As Performance:**

**Courtroom Discourse as Verbal Performance** Seth William Wood, 2012 Individual events within courtroom discourse such as lawyer witness interactions have been studied extensively particularly within a framework of powerful vs powerless language Adelsward 1987 Archer 2006 Bogoch 2000 Eades 2010 Fuller 1993 Gnisci Hobbs 2007 Keating 2009 Penman 1990 Philips 1984 Roberts 1990 However this thesis will show that courtroom discourse is sufficiently unique to warrant a distinct framework It will also explore the explanatory power of a Courtroom Discourse Verbal Performance framework influenced by Verbal Art as Performance Bauman 1977 In particular this work will create a framework Courtroom Discourse Verbal Performance that explains the sociolinguistic situation of the entire courtroom trial instead of simply one small part i e questioning a witness entering a plea etc This framework allows for the inclusion of the whole courtroom discourse event into a single unifying idea of courtroom discourse as performance The peculiar sociolinguistic interactions of various people within courtroom discourse are explained as restrictions on the interactions of roles within the performance Courtroom discourse data gathered from the Provo Fourth District Court is presented and analyzed as supporting evidence The Power of Discourse in Ritual Performance Ulrich Demmer, 2007 This volume focuses on the ways discourse is used in ritual performances as an important medium of power enabling speakers actors to construct redefine and transform interpersonal relationships cultural concepts and worldviews The various case studies gathered here from South Asia South East Asia Africa and South America show that recent developments in linguistic anthropology ritual theory and performance studies provide new conceptual tools to take a fresh look at these issues Foregrounding pragmatic approaches to language and discourse they explore the social dynamics of rhetorical discourse text and context normativity and creativity the poetics of dialogue and speech as well as the manifold interactions of speakers addressees and audience The volume thus embraces both the micro level of speech activities as well as the macro level of social and political relationships and brings out the subtle workings of control authority and power in situations marked as ritual The contributions all based on extensive fieldwork include many concrete samples of speech and discourse which give an authentic impression of the different voices and make for vivid reading Humorous Discourse Wladyslaw Chlopicki, Dorota Brzozowska, 2017-10-23 This book attempts to discuss selected but thorny issues of humor research that form the major stumbling blocks as well as challenges in humor studies at large and thus merit insightful discussion Any discourse is action so the text creation process is always set in a non verbal context built of a social and communicative situation and against the background of relevant culture On the other hand humor scholars claim that humorous discourse has its special essential features that distinguish it from other discourses The pragmatic solution to the issue of potential circularity of humor defined in terms of discourse and discourse in terms of humor seems only feasible and thus there is a need to discuss the structure and mechanisms of humorous texts and humorous performances The chapters in the present volume contributed by leading scholars in the field of humor studies

address the issues from various theoretical perspectives from contextual semantics through General Theory of Verbal Humor cognitive linguistics discourse studies sociolinguistics to Ontological Semantic Theory of Humor providing an excellent overview of the field to novices and experts alike      *Discourse as Performance* Michael Issacharoff,1989 One of the first books to apply contemporary linguistic and semiotic research to drama Discourse as Performance is an investigation into theatrical discourse the specifically theatrical use of language in the broadest sense from verbal utterance to non verbal uses comprising the visual elements of gesture facial expression movement costume players bodies properties and decor The book is in three parts In the first part the author deals with theatrical discourse proper and distinguishes between its two main modes dialogue and stage directions Both modes address the problem of the specificity of theatrical discourse in contrast to other types of discourse both literary and non literary The dialogue raises the questions of who speaks in a play author characters actors and to whom the stage directions raise the question of reading a play as opposed to seeing it performed onstage The author links these issues to speech act theory and intertextuality      **Learning Language through Task**

**Repetition** Martin Bygate,2018-09-15 After more than 20 years of research this is the first book length treatment of second language task repetition the repetition of encounters with a task that involve re using the same content with the same overall purpose The topic links task performance with the growing mastery of both the task and of relevant language and constitutes a site with special potential to promote learning within and across language lessons and for preparing students for assessment and of course real world language performance The volume assembles chapters that complement each other in interesting ways significant background reviews studies of patterns of change across task repetition iterations and reports on the use and nature of task repetition in language classes in on going programmes Contributors draw on a variety of interpretive frameworks and report from a range of language educational contexts The volume will be of interest to language researchers teacher educators teachers and students as well as others interested in the contribution of task repetition to learning

*A Pragmatic Theory of Rhetoric* Walter H. Beale,1987 Walter H Beale offers the most coherent treatment of the aims and modes of discourse to be presented in more than a decade His development of a semiotic grammar of motives that relates the problems of meaning in discourse both to linguistic structure and ways of constructing reality stands as a provocative new theory of rhetoric sharply focused on writing He includes a comprehensive treatment of rhetoric its classes and varieties modes and strategies In addition he demonstrates the importance of the purpose substance and social context of discourse at a time when scholarly attention has become preoccupied with process He fortifies and extends the Aristotelian approach to rhetoric and discourse at a time when much theory and pedagogy have yielded to modernist assumptions and methods And finally he develops a theoretical framework that illuminates the relationship between rhetoric the language arts and the human sciences in general      *The New Standard Encyclopedia* William A. Colledge,Nathan Haskell Dole,George Jotham Hagar,1907      *People of the Drum of God-- Come!* Paul Neeley,1999 The beat of an nkul a wooden slit drum

reverberates at dawn around and through the trees and houses of the Ewondo people of Mekomba Cameroon What is being communicated The author's interest was sparked in this communication phenomenon when he recorded audio versions of a drummed message Though the general message was the same for each performance the differences were strikingly noticeable It was apparent that this was not a recital of a fixed piece He wondered how many different ways a text could be drummed and still be understood and how exact was the correlation between speech sounds and drum strokes By examining in detail the performance paradigm of Antoine Owono a church leader who has been drumming for more than forty years Paul Neeley presents a thorough analysis of this communication event The analysis ranges from phonology of drumstrokes to the discourse level to the level of community comprehension This study draws from such diverse disciplines as sociolinguistics anthropology semiotics cognition aesthetics and ethnomusicology to make an invaluable contribution to our understanding of African culture and communication **Iowa Journal of Communication** ,2001 **"A Ganar la Calle"** Camilo Daniel Trumper,2008 **Collins' Graphic English dictionary, ed. by A.M.
