Discourse Markers and (Dis)fluency Ludvine Crible, 2018-04-15 Spoken language is characterized by the occurrence of linguistic devices such as discourse markers e.g. so well you know I mean and other so called disfluent phenomena which reflect the temporal nature of the cognitive mechanisms underlying speech production and comprehension The purpose of this book is to distinguish between strategic vs symptomatic uses of these markers on the basis of their combination function and distribution across several registers in English and French Through deep quantitative and qualitative analyses of manually annotated features in the new DisFrEn corpus this usage based study provides i an exhaustive portrait of discourse markers in English and French and ii a scale of disfluency against which different configurations of discourse markers can be diagnosed as rather fluent or disfluent By bringing together discourse markers and disfluency under one coherent framework this book is a unique contribution to corpus based pragmatics discourse analysis and crosslinguistic fluency research

NU / NÄ Peter Auer, Yael Maschler, 2016-10-24 This book situated within the framework of Comparative Interactional Linguistics explores a family of fourteen discourse markers across the languages of Europe and beyond Yiddish Hebrew Russian Polish Romani Estonian Finnish Upper Saxonian and Standard German Dutch Icelandic and Swedish arguing that they go back to one possibly two particles NU N Each chapter analyzes the use of one of the NU N family members in a particular language usually on the basis of conversational data feeding into a comprehensive chapter on the structure function and history of these particles The approach taken in this volume broadens the functional linguistic concept of structure to include the sequential positioning of the particles and their composition and the concept of function to include the conversational actions performed in interaction Employing conversation analytic methodology thus enables a study of the

ways these particles acquire meaning within certain sequential and action environments both cross linguistically and with regard to the grammaticization of the particles All this sheds light on the borrowing patterns of NU N across the languages With contributions by Peter Auer Galina B Bolden Gonen Dori Hachon Andrea Golato Harrie Mazeland Auli Hakulinen Helga Hilmsd ttir Leelo Keevallik Hanna Lehti Eklund Anna Lindstr m Yael Maschler Yaron Matras Gertrud Reershemius Mirja Saari Lea Sawicki Marja Leena Sorjonen Heidi Veps l inen and Matylda Weidner

Discourse and Pragmatic Markers from Latin to the Romance Languages Chiara Ghezzi,Piera Molinelli,2014-07-31 This book examines the historical development of discourse and pragmatic markers across the Romance languages These markers serve to indicate the organization of the discourse the speaker s relationship with the interlocutor and the speaker s stance with regard to the information expressed Their relevance is in assisting interpretation despite the fact that they have little or no propositional content In this book distinguished scholars from different theoretical backgrounds analyse the different classes of discourse and pragmatic markers found in Latin and the Romance languages and explore both their diachronic development and their synchronic properties Following an introduction and overview of the development of these markers the book is divided into two parts the first part investigates pragmatic markers developed from verbs such as Latin quaeso Romanian ma rog and Spanish o sea the second looks at adverbs as discourse markers such as French d j and Italian gi Romanian atunci and Portuguese ali s Chapters address a variety of theoretical issues such as the cyclic nature of functional developments the nature of grammaticalization and pragmaticalization semantic change and the emergence of new pragmatic values The arguments presented also have consequences for any analysis of the interfaces between grammar discourse and interaction

Pragmatic Markers in Contrast Karin Aijmer,Anne-Marie Simon-Vandenberg,2022-05-16 Building on the first volume in the Studies in Pragmatics series which clearly set out the differences and similarities in approaches to discourse markers Pragmatic Markers in Contrast continues the debate through offering a unique and thorough examination of the methods and theories for studying pragmatic markers cross linguistically As a result of internationalisation and new developments in linguistics there has been an increasing interest in cross linguistic studies Aijmer and Simon Vandenberg have assembled experts in this field to explore the comparison of pragmatic markers across languages in order to offer

important insights into the similarities and differences between languages Contrastive studies can also shed more light on the pragmatic and discourse functions that pragmatic markers fulfil in the languages compared Another issue is to what extent pragmatic markers which have evolved from the same lexical source have developed similar functions in different languages An impressively large number of different approaches are represented in this volume as well as a wide range of languages including English Swedish Spanish Dutch German French Norwegian and Solv a dialect of Finland Swedish

Between Turn and Sequence John Heritage, Marja-Leena Sorjonen, 2018-07-15 The last two decades have witnessed a remarkable growth of interest in what are variously termed discourse markers or discourse particles The greatest area of growth has centered on particles that occur in sentence initial or turn initial position and this interest intersects with a long standing focus in Conversation Analysis on turn taking and turn construction This volume brings together conversation analytic studies of turn initial particles in interactions in fourteen languages geographically widely distributed Europe America Asia and Australia The contributions show the significance of turn initial particles in three key areas of turn and sequence organization i the management of departures from expected next actions ii the projection of the speaker's epistemic stance and iii the management of overall activities implemented across sequences Taken together the papers demonstrate the crucial importance of the positioning of particles within turns and sequences for the projection and management of social actions and for relationships between speakers

Fluency and Disfluency Across Languages and Language Varieties Liesbeth Degand, Gaëtanelle Gilquin, Laurence Meurant, Anne Catherine Simon, 2019-03-08 Fluency and disfluency are characteristic of online language production and may be signalled by markers such as filled and unfilled pauses discourse markers repeats or self repairs which can be said to reflect ongoing mechanisms of processing and monitoring The Fluency Disfluency across Languages and Language Varieties conference held at the University of Louvain in February 2017 marked the closing of a five year research project dedicated to the multimodal and contrastive investigation of fluency and disfluency in L1 and L2 English French and French Belgian sign language with a focus on variation according to language speaker and genre The closing conference was intended as an opportunity to further expand the range of languages language varieties and genres studied from the disfluency perspective The selection of papers in this volume reflects the diversity of approaches aiming to uncover the ways in which fluency and disfluency are conceived in language production and comprehension and how they are signalled Topics include methodological challenges in cross linguistic disfluency research the role of contextual features in professional and non professional settings and the characteristics of fluency and disfluency in second language speech Of particular importance in all contributions is the ambivalent role of pauses discourse markers repeats and other markers which can be both a symptom of encoding difficulties and a sign that the speaker is trying to help the hearer decode the message They should thus be interpreted in context to identify their contribution to fluency and or disfluency which can be viewed as two sides of the same coin

"There's Like the Galleria and Like All These Like Really Great Shoe Stores" Kathrin Biegner, 2011-03 Seminar paper from the year 2008 in the subject English Language and Literature Studies Comparative Literature grade 1.3 language English abstract Learners of a second language are confronted with different challenges. They have to learn new words and grammar rules and how to apply them. To improve their skills they need to be corrected or they must have the possibility to correct themselves by comparing their usage of the foreign language with that of native speakers. However, there are some implicit rules to using a language which are rarely detected by both learners and native speakers. One of these cases is the usage of discourse markers. DM Svartvik 1980: 171. Swedish linguist Jan Svartvik assumes that such particles in inadequate applications have more far-reaching consequences during communication than grammatical incorrectness. 1980: 172. In this essay I will concentrate on the DM like since it is amongst the most frequently used by native speakers of English. Fox Tree 2006: 727, 2007: 309. Møller 2005: 197. As research has shown, non-native speakers use like less often as a DM than native speakers. Fuller 2003: 200. Fung and Carter 2007: 435. Hikyoung 2004: 121. Møller 2005: 230. Thus I will firstly argue that the infrequent use of like as a DM is one feature by which non-native speakers can be recognized as such. Secondly, I will show that this deficit in pragmatic competence affects their communication with native speakers negatively. I claim that the reasons for the lower rate of like relates to its pragmatic functions and the way in which English is taught.

Writing Across Languages Ulla Connor, 1987 This collection of articles presents an evaluation of research in the analysis of written text and its application in the teaching of second language writing skills. The volume presents both linguistic and psychological theories connected to the written text.

Discourse Markers and Beyond Péter B. Furkó, 2019-12-26 This book explores the use of discourse markers, lexical items where drawing a distinction between propositional and non-propositional syntactically semantically integrated and discourse pragmatic uses is especially relevant. Using a combination of qualitative and quantitative methodologies, descriptive and critical CDA perspectives and manual annotation and automatized analyses, the author argues that Discourse Markers (DMs) cannot be effectively studied in isolation but must instead be contextualised with reference to other discourse pragmatic devices and their language and genre.

backgrounds This book will be of interest to students and academics working in the fields of DM research and critical discourse studies and will also appeal to scholars working in areas such as genre studies second language acquisition SLA literary analysis contemporary cinematography Tolkien scholarship and Bible studies **The Handbook of Language Variation and Change** J. K. Chambers, Peter Trudgill, Natalie Schilling-Estes, 2002-01-28 This handbook written by a distinguished international roster of contributors reflects the vitality and growth of the discipline in its multifaceted pursuits It is a convenient hand held repository of the essential knowledge about the study of language variation and change

Discourse Markers in Native and Non-native English Discourse Simone Müller, 2005-01-01 While discourse markers have been examined in some detail little is known about their usage by non native speakers This book provides valuable insights into the functions of four discourse markers so well you know and like in native and non native English discourse adding to both discourse marker literature and to studies in the pragmatics of learner language It presents a thorough analysis on the basis of a substantial parallel corpus of spoken language In this corpus American students who are native speakers of English and German non native speakers of English retell and discuss a silent movie Each of the main chapters of the book is dedicated to one discourse marker giving a detailed analysis of the functions this discourse marker fulfills in the corpus and a quantitative comparison between the two speaker groups The book also develops a two level model of discourse marker functions comprising a textual and an interactional level **Discourse Markers and Modal Particles** Liesbeth Degand, Bert Cornillie, Paola Pietrandrea, 2013-11-14 Discourse markers and modal particles are fuzzy linguistic categories that are difficult to describe The contributions in this volume go beyond this statement They discuss the intersection between modal particles and discourse markers and examine whether or not it is possible to draw a line between these two types of linguistic expressions On the basis of new synchronic and diachronic data from speech and writing from European and Asian languages or cross linguistically the authors answer the question whether discourse markers and modal particles are distinct categories whether they form a cline or whether modal particles are a subcategory of discourse markers This common question shows up throughout all chapters which makes the book to a coherent whole By disentangling the complexity of categorizing multifunctional expressions this book also sheds new light on the processes of meaning extension The traditional discourse and modal functions are complemented by interactional and textual ones A must read for functional linguists
