Discourse Theory and Political Analysis David R. Howarth, Aletta J. Norval, Yannis Stavrakakis, 2000-11-18 How can recent developments in post structuralist post Marxist and psychoanalytical theory actually inform ongoing empirical research What are the appropriate methods and research strategies for conducting research in discourse theory and analysis How can concepts such as hegemony identity the imaginary dislocation and empty signifiers illuminate key aspects of contemporary society and politics This pathbreaking and multi focal book contains a clear introductory statement of the theoretical approach used and concludes with an assessment of the future directions of discourse theory in the social sciences

State Formation in Afghanistan Mujib Rahman Rahimi, 2017-08-17 The creation of Afghanistan in 1880 following the Second Anglo Afghan War gave an empowering voice to the Pashtun people the largest ethnic group in a diverse country In order to distil the narrative of the state s formation and early years a Pashtun centric version of history dominated Afghan history and the political process from 1880 to the 1970s Alternative discourses made no appearance in the fledgling state which lacked the scholarly institutions and any sense of recognition for history thus providing no alternatives to the narratives produced by the British whose quasi colonial influence in the region was supreme Since 1970 the ongoing crises in Afghanistan have opened the space for non Pashtuns including Tajiks Hazaras and Uzbeks to form new definitions of identity challenge the official discourse and call for the re writing of the long established narrative At the same time the Pashtun camp through their privileged position in the political settlements of 2001 have attempted to confront the desire for change in historical perceptions by re emphasising the Pashtun domination of Afghan history This crisis of hegemony has led to a deep antagonism between the Pashtun and non Pashtun perspectives of Afghan history and threatens the stability of political process in the country

The Lacanian Left Yannis Stavrakakis, 2007-08-09 In recent years psychoanalysis especially Lacanian theory has been gradually acknowledged as a vital resource in the ongoing reorientation of contemporary political theory and analysis Of particular note is that the work of Jacques Lacan is increasingly being used by major political philosophers associated with the Left This indicates the dynamic emergence of a new theoretico political horizon that of the Lacanian Left However this field has yet to be properly conceived as a field and this is the first book to bring it into academic consciousness and to systematically draw its implications for concrete political analysis This book offers an accessible mapping of its main contours a detailed examination of the convergences and divergences between the major figures active within or at the periphery of this terrain including Slavoj Žižek Ernesto Laclau Alain Badiou and Cornelius Castoriadis and a critical evaluation of their respective arguments on social construction and the political affectivity and discourse ethics and social change and negativity and positivity Engaging with the role of affect and emotion in political life through the central Lacanian notion of enjoyment The Lacanian Left puts forward innovative analyses of political power and authority
