Discourse And Practice Suny Series Toward A Comparative Philosophy Of Religions:

Discourse and Practice Frank E. Reynolds, David Tracy, 1992-05-14 Discourse and Practice strives to stretch the boundaries of commonly accepted notions of philosophical discourse in order to introduce comparative considerations It is united by a concern to tease out the philosophical discourse and practices which inhere in seemingly unphilosophical texts These texts range from ethnographical materials to mythical and fictive narratives and finally to explicitly theoretical traditions Each author in attending to the details of his or her area study strives to demonstrate the implicit and explicit philosophical agendas at play The comparative examples offer valuable insights for how discourse can be redefined One consistent assumption presented here is that the element of practice which has long been posed in opposition to theory must be treated as an integral aspect of the philosophical import of any tradition Historical traditions covered include East Asia Papua New Guinea and Tibet as well as the more familiar territory of Western disciplinary fields

Interreligious Dialogue and Cultural Change

Catherine Cornille, Stephanie Corigliano, 2012-08-17 The challenges and changes that take place when religions move from one cultural context to another present unique opportunities for interreligious dialogue In new cultural environments religions are not only propelled to enter into dialogue with the traditional or dominant religion of a particular culture religions are also invited to enter into dialogue with one another about cultural changes In this volume scholars from different religious traditions discuss the various types of dialogue that have emerged from the process of acculturation While the phenomenon of religious acculturation has generally focused on Western religions in non Western contexts this volume deals predominantly with the acculturation in the United States It thus offers a fresh look at the phenomenon of acculturation while also lifting up an often implicit or ignored dimension of interreligious dialogue

Rediscovering God with Transcendental Argument David Peter Lawrence, 2015-07-29 Rediscovering God with Transcendental Argument provides a comparative philosophical study of the Pratyabhijñā system of the medieval Kashmiri Advaita thinkers Utpaladeva and Abhinavagupta Beginning with intensive descriptive and prescriptive reflections on the nature of philosophy itself the book

examines the special characteristics of the Pratyabhijā discourse as both philosophical apologetics and spiritual exercise. Lawrence situates the Pratyabhijā speculation within the larger context of Hindu and Buddhist deliberations about the role of interpretation in experience and gives a groundbreaking exposition of the epistemology and ontology of Shiva's self-recognition. He observes the similarities and differences of the Pratyabhijā with Christian understandings of the divine logos and argues that the Advaita philosophy elucidates a cogent way of demonstrating the reality of God against contemporary relativism, deconstructionism and other forms of skepticism. *Redescribing Paul and the Corinthians* Society of Biblical Literature, 2011. This second volume of studies by members of the SBL Seminar on Ancient Myths and Modern Theories of Christian Origins reassesses the agenda of modern scholarship on Paul and the Corinthians. The contributors challenge the theory of religion assumed in most New Testament scholarship and adopt a different set of theoretical and historical terms for redescribing the beginnings of the Christian religion. They propose explanations of the relationship between Paul and the recipients of 1 Corinthians, the place of Paul's Christ myth for his gospel, the reasons for a disinterest in and rejection of Paul's gospel and/or for the reception and attraction of it and the disjunction between Paul's collective representation of the Corinthians in 1 Corinthians and the Corinthians' own engagement with Paul in mythmaking and social formation, including mutual mis-translation and misappropriation of the other's discourse and practices. *Bibliografisch repertorium van de wijsbegeerte*, 2000. **Journal of Chinese Religions**, 1998. **Forthcoming Books** Rose Army, 1997-12. **Philosophy East & West**, 1996. *Discipline and Debate* Michael Lempert, 2012-04-30. The Dalai Lama has represented Buddhism as a religion of non-violence, compassion and world peace, but this does not reflect how monks learn their vocation. This book shows how monasteries use harsh methods to make monks of men and how this tradition is changing as modernist reformers like the Dalai Lama adopt liberal and democratic ideals such as natural rights and individual autonomy. In the first in-depth account of disciplinary practices at a Tibetan monastery in India, Michael Lempert looks closely at everyday education rites from debate to reprimand and corporal punishment. His analysis explores how the idioms of violence inscribed in these socialization rites help produce educated moral persons but in ways that trouble Tibetans who aspire to modernity. Bringing the study of language and social interaction to our understanding of Buddhism for the first time, Lempert shows and why liberal ideals are being acted out by monks in India, offering a provocative alternative view of liberalism as a globalizing discourse. *Gender and Timebound Commandments in Judaism* Elizabeth Shanks Alexander, 2013-04-22. The rule that exempts women from rituals that need to be performed at specific times, so-called timebound positive commandments, has served for centuries to stabilize Jewish gender. It has provided a rationale for women's centrality at home and their absence from the synagogue. Departing from dominant popular and scholarly views, Elizabeth Shanks Alexander argues that the rule was not conceived to structure women's religious lives but rather became a tool for social engineering only after it underwent shifts in meaning during its transmission. Alexander narrates the rule's complicated history, establishing the

purposes for which it was initially formulated and the shifts in interpretation that led to its being perceived as a key marker of Jewish gender At the end of her study Alexander points to women s exemption from particular rituals Shema tefillin and Torah study which she argues are better places to look for insight into rabbinic gender
