## **Discourses Of Ethnicity Culture And Protest In Jharkhand:**

Discourses of Ethnicity Susana B. C. Devalle, 1992      Narratives from the Margins Sanjukta Das Gupta, Raj Sekhar Basu, 2012 Adivasis have principally been studied in the context of rebellion environmental history and the politics of identity. However, preoccupations with definitions and notions of identity while important in themselves tend to shift attention away from the inner lives of these communities. This book deals with different aspects of the histories of adivasi communities from Rajasthan in the west to Bengal and Orissa in the east. The essays in this book discuss a range of issues affecting the socio-economic and cultural life of adivasis and explore the long-term continuities and discontinuities between different political regimes. They also reflect some of the new concerns that have come up relating to methodology and sources, historiography and colonial concerns, the impact of missionaries, gender issues, the agrarian situation, famines and migration. Some of the issues addressed in this volume are the genesis and development of tribal studies in India during the colonial period, the peasantization of adivasi groups and their assimilation within the Hindu caste fold as reflected in Tulsidas Ramcharitmanas, the work of the Protestant missions among the Santals of Chotanagpur, the social and ritual relations between the Bhils and the Rajput ruling dynasties of Dungarpur in southern Rajasthan, the aspect of agrarian change among the Hos of Singhbhum, the factors behind the migration from Chotanagpur, its nature and organization and its impact upon the adivasi village community, the question of women's agency in colonial Chotanagpur and an exploration of land rights, witchcraft, employment patterns and how women challenged patriarchy in their everyday lives and the impact of globalisation and liberalization upon adivasis in contemporary India. The book will be of use to students and scholars of history, anthropology and sociology and also to policy planners.

*Interrogating Marginalities across Disciplinary Boundaries* Anna Bochkovskaya, Sanjukta Das Gupta, Amit Prakash, 2024-12-18 This volume adopts an interdisciplinary approach to rethink the multiple dimensions of marginality: political, societal, economic, cultural, legal and spatial. It explores their new representations in colonial and post-colonial India. Departing from extant analyses of experiences of marginalization in diverse social groups, it proposes to problematize the conceptualization of marginality, focusing on its evolution through space and time. A relational position on marginality, it is argued, presupposes a confrontation with centrality or the mainstream within a common discourse of knowledge and power. The volume emphasizes that the process of marginalization is not a marginal phenomenon and draws attention to the historical processes which determine, establish and perpetuate the margins. The book reflects on varied aspects of evolving marginalities: structural, cultural and psychological in South Asia in diverse temporal, spatial or societal contexts. It examines the discourses, institutional mechanisms and economic processes within which marginalities are located. This work will be an important read for scholars and researchers of history, anthropology, subaltern studies, exclusion studies, South Asian history, post-colonial studies, political studies, Indian history, cultural studies and history in general.

Bosu Mullick, 2003 Jharkhand the land of forest named by the people of the neighboring plains had been a safe haven of the indigenous peoples until the sixteenth century when the process of central state formation began to grow out of the nontribal matrix in the region The states that emerged then fell under the direct influence and control of the great empires of successive periods that encroached upon the resources and lives of the indigenous peoples They disrupted their egalitarian social system and their culture based upon a symbiotic relationship with their environment forcing the indigenous people to retreat to even more inhospitable regions to rebuild their social structure However they were never able to fully escape the ever increasing boundaries of the state which eventually stripped the Jharkhand of its resources and left its people peasants The modern Jharkhand movement a continuation of the peoples resistance to the encroaching state has been widely covered in the media and academic circles Various analytical reports academic interpretations and political explanations often holding contradictory views have been published over a period exceeding the last five decades The production of such a huge corpus of literature shows the strength of the movement and the immense significance of the issues Containing contributions by leading social scientists
