Discover Idaho's Centennial Trail Stephen Stuebner,2003-06 The Search for the Flat Ness Monster Ron Whittaker,2016-03-04 When he first began the ICT Ron envisioned that it would take from five to ten years to complete the trail He had the feeling that when he signed up for his first ICT hike that he was about to step into the company of some elite hikers It was very humbling for him to struggle along for thirteen miles that day always the last one down the trail trying to catch up to the others Asthma made him much slower than most hikers As his journey progressed he met another hiker who was on the same quest Together they hiked about half of Idaho He had much to learn about traveling in wilderness areas Over time his conditioning skills and confidence improved and he began to venture on solo hikes His journey across Idaho was not a continuous line of progress He completed the trail in the most random and hopscotch fashion that one could imagine Along the way there were many interesting experiences and encounters including a near fatal slide in the snow that almost ended the quest Despite sometimes slow progress frustrating setbacks and physical limitations he was able to experience the diverse and incredibly beautiful state of Idaho with its ever changing topography and climate He traveled the high deserts of the south the Snake River plains the Sawtooth Wilderness the massive Salmon River canyon the Gospel Hump Wilderness the highlands of the Idaho Montana Stateline Trail the panhandle territory the Selkirk range the shores of Priest Lake and arrived at last at Upper Priest River waterfall It was a defining journey for Ron He highly recommends the Idaho Centennial Trail to any prospective person who is considering either a thru hike or a project of several years Trailhead ,2000 **Honor the Past** White House Millennium Council (U.S.),2001 Rail-Trails Washington and Oregon Rails-to-Trails Conservancy,2015-05-19 Across the country more than 1600 unused railroad corridors have been converted to level public multiuse trails where people can enjoy a fitness run a leisurely bike ride or a stroll with the family In this new guide in the popular series the Rails to Trails Conservancy presents the Northwest region s finest rail trails plus other great multiuse trails Rail Trails Washington Oregon includes detailed coverage of more than 40 great trails Many rail trails are paved and run through the most scenic parts of town Others travel along dense forests open fields and lush waterways Some explore the area s history and others help users enjoy the serenity of the rural countryside Favorites noted by Rails to Trails Conservancy staff include the Chehalis Western Trail and Olympic Discovery Trail in Washington and the Banks Vernonia State Trail in Oregon This full color book includes succinct descriptions of each trail from start to finish plus at a glance summary information indicating permitted uses surface type length and directions to trailheads for each trail Every trip has a detailed map that includes start and end points trailhead parking restroom facilities and other amenities **The Idaho Librarian** ,1999 *Forthcoming Books* Rose Army,2003 **Hike With Me** Bustamante Jeanne (author),1901 *Idaho Off the Beaten Path* Julie Fanselow,2002-06 Uncover the most obscure attractions in Idaho such as Vintage Guitars in Post Falls or check out the world s largest potato chip in this guide to the weird and way out in Idaho 8 maps 13 illustrations **Hike**

with Me: Idaho Centennial Trail Frank Church Part 1 Jeanne Bustamante, 2019-12-30 Hike along with Jeanne through the first half of the Frank Church River of No Return Wilderness on the Idaho Centennial Trail Featuring over 200 full color pictures as well as a crash course in what to do when the backpacking plan doesn't survive the engagement with trail reality in ways good and not so good Hike with Me: Idaho Centennial Trail Sawtooths Jeanne Bustamante, 2017-02-04 **Idaho Centennial Trail** Lisa Johnson, Jeremy Johnson, 2023 Stretching nearly 1 000 miles from Nevada to Canada the Idaho Centennial Trail ICT passes through some of the most dramatic scenery in the state of Idaho This new guidebook contains detailed information researched by Lisa and Jeremy Johnson who thru hiked the entire trail This book organizes the trail into seven regions and each region contains sections that include detailed trail descriptions camp to camp mileage alternate routes and access points Whether you are hiking a section region or the whole trail this book is a valuable resource adapted from publisher *Report on America's National Scenic National Historic* ,1991 **Hike with Me: Idaho Centennial Trail** **Owhyee** Jeanne Bustamante, 2017-11-09 Hike along with Jeanne on a solo backpacking adventure Experience the beginning of the Idaho Centennial Trail from the Nevada border to the small town of Hammett The book includes over 180 full color pictures I walked down a highway that rolled just enough to prevent me from seeing very far in the distance with wind trying to blow me directly back the way I came and trucks roaring by with their own eddies of wind and dust to contribute And I thought about my goal for the hike I wanted to hike 100 miles Why Because it would be cool It was a good number a round number But it was also arbitrary Sure there were sections of the ICT that would require 100 miles of me and this was a safer section to practice that And 100 miles would be a nice chunk out of the 900 miles I am planning to travel over the next decade or so But the end point of 100 miles was a crossroads that might not be accessible by car and I knew that even if I could push my body to complete the 100 miles it would take just about all that I had So what was the purpose of the hike The real purpose not the arbitrary cool sounding sound bite of a goal I was out there in the blazing sun dirty sweaty and in pain to learn *Colorado State Trails News* ,1992 **The Spa Finder** ,1995 Hike with Me: Idaho Centennial Trail Sawtooths ,2017-01-09 Hike along with Jeanne on a five day solo backpacking adventure Experience over 70 miles of the Idaho Centennial Trail through the Sawtooth Wilderness from Willow Creek to Stanley Lake The book includes over 200 full color pictures Carrying a heavy pack across many miles can hurt the body making it sore and tired But its presence on my back is also a symbol of my self sufficiency All that I need for my journey is on my back weighing me down yes but also challenging me to figure out what is important What do I really need to carry Not just in my pack but in my mind The weight asks the question and forces me to answer Home & Away in Kentucky ,1990 *North Idaho Centennial Trail - the Trail That Almost Wasn't* Doug Eastwood, 2020-02-20 This book describes the difficulty of creating a 23 mile trail connecting two states and multiple communities The fear of change created enormous opposition to this waking and bicycling trail Trail supporters did not see that something as benign as a pedestrian trail would divide a community Political entities grappled with one

another some did not want to see the trail and threatened court action to stop it Others saw the long term benefits and pushed for the creation of the trail risking their political careers Businesses sided for and against the trail as did neighborhoods along the proposed trail corridor Perseverance and commitment eventually prevailed even though it took much longer than anyone had anticipated Today this trail is an icon to the community and used by hundreds of thousands of people every year Field Guide to Food & Survival Plants Along Idaho's Centennial Trail Ray Vizgirdas,2017-12-21 A Field Guide to Food Survival Plants along Idaho s Centennial Trail was developed to introduce hikers to the abundance of wild and native plants foods along this almost 1 000 mile long trail in Idaho For those unfamiliar with the Idaho Centennial Trail ICT it is a trail that starts at Murphy Hot Springs on the Idaho Nevada border and proceeds north through the Sawtooth Frank Church River of No Return and the Selway Bitterroot wilderness areas along the Idaho Montana border within the Bitterroot Range and ends at the Canadian border north of Priest Lake in the Idaho Panhandle Along the way you travel through sagebrush steppe mountain and subalpine forests and alpine environments In short a diversity of habitats and in many cases in truly remote backcountry conditions
