Colonial Mentality in Africa Nkuzi Michael Nnam, 2007-03-27 Intended for a broad audience Colonial Mentality in Africa explores the lingering effects of colonization in present day Africa Despite the independence of all African nations from their former colonizers mental slavery still persists This new work explores the social climate of Africa and the thriving colonial mentality The book explores issues such as patriarchy religion tradition and values law the influence of Islam and

government **Africanizing Knowledge** Toyin Falola, Christian Jennings, Nearly four decades ago Terence Ranger questioned to what extent African history was actually African and whether methods and concerns derived from Western historiography were really sufficient tools for researching and narrating African history Despite a blossoming and branching out of Africanist scholarship in the last twenty years that question is still haunting The most prestigious locations for production of African studies are outside Africa itself and scholars still seek a solution to this paradox They agree that the ideal solution would be a flowering of institutions of higher learning within Africa which would draw not only Africanist scholars but also financial resources to the continent While the focus of this volume is on historical knowledge the effort to make African scholarship more African is fundamentally interdisciplinary The essays in this volume employ several innovative methods in an effort to study Africa on its own terms The book is divided into four parts Part 1 Africanizing African History offers several diverse methods for bringing distinctly African modes of historical discourse to the foreground in academic historical research Part 2 African Creative Expression in Context presents case studies of African art literature music and poetry It attempts to strip away the exotic or primitivist aura such topics often accumulate when presented in a foreign setting in order to illuminate the social historical and aesthetic contexts in which these works of art were originally produced Part 3 Writing about Colonialism demonstrates that the study of imperialism in Africa remains a springboard for innovative work which takes familiar ideas about Africa and considers them within new contexts Part 4 Scholars and Their Work critically examines the process of African studies itself including the roles of scholars in the production of knowledge about Africa This timely and thoughtful volume will be of interest to African studies scholars and students who are concerned about the ways in which Africanist scholarship might become more African Toyin Falola a leading historian of Nigeria and a distinguished Africanist is the Frances Higginbotham Nalle Centennial Professor of History at the University of Texas at Austin His numerous publications include *Yoruba Historiography* *African Historiography and Nationalism* and *African Intellectuals* Christian Jennings is completing his Ph D at the University of Texas at Austin He has contributed chapters on environmental history to the five volume series on Africa published by Carolina Academic Press and is co editing a forthcoming book on historical methods Hollywood and Africa Dokotum, Okaka Opio, 2020-02-16 *Hollywood and Africa* recycling the Dark Continent myth from 1908 2020 is a study of over a century of stereotypical Hollywood film productions about Africa It argues that the myth of the Dark Continent continues to influence Western cultural productions about Africa as a cognitive based system of knowledge especially in history literature and film *Hollywood and Africa* identifies the colonial mastertext of the Dark Continent mythos by providing a historiographic genealogy and context for the term's development and consolidation An array of literary and paraliterary film adaptation theories are employed to analyse the deep genetic strands of Hollywood Africa film adaptations The mutations of the Dark Continent mythos across time and space are then tracked through the classical neoclassical and new wave Hollywood Africa phases in order to illustrate how Hollywood

productions about Africa recycle revise reframe reinforce transpose interrogate and even critique these tropes of Darkest Africa while sustaining the colonial mastertext and rising cyberactivism against Hollywood's whitewashing of African history
