DISCOVERING RADICAL CONTINGENCY R. G. BAGNALL,1998 *Discovering Radical Contingency* Richard Gordon Bagnall,1999 *Discovering Radical Contingency* examines the implications of postmodern culture for education particularly those involving adult learners Against a critical review of modernist culture and education a comparative account of the postmodern is posited That account is reconfigured as a set of six tensions These tensions are then used in exploring the nature of educational practice and engagement in postmodernity from different perspectives through dialogues with students of that practice through case studies of practice as descriptive tendencies of engagement and as nodal forms of programmatic activity The book closes with chapters examining the nature of educational research and the professional development of adult educators in postmodernity The Jossey-Bass Reader on Contemporary Issues in Adult Education Sharan B. Sandlin,2004-07 Offering theoretical and practical knowledge to help critical adult educators in their attempts to enact critical pedagogy in their own classroom this volume explores critical theory feminism critical postmodernism Africentrism queer theory and cultural studies Picking up on the themes first raised by Elizabeth Ellsworth critical theory and classic critical pedagogy do not get a particularly easy ride None of the authors claims that critical approaches are a simple solution to the tangles of late modernity In every case the authors see critical pedagogy as complex insightful challenging limited and difficult to put into practice But in every case they see critical perspectives as offering the hope and potential of a more just world The idea that critical perspectives on teaching are difficult to enact in the classroom is not new And what do we mean by critical perspectives anyway In this volume some of the most exciting scholars in adult education whether established or emerging provide insights into what it means to be critical and how it affects the concrete practices of teaching adults This is the 102nd issue of the quarterly higher education report New Directions for Adult and Continuing Education The Power of Critical Theory for Adult Learning and Teaching Stephen Brookfield,2005 This contribution to the literature on adult education provides adult educators with an accessible overview of critical theory s central ideas Using many direct quotes from the theorists works Brookfield shows how critical theory illuminates the everyday practices of adult educators and helps them make sense of the dilemmas contradictions and frustrations they experience in their work Drawing widely on central texts in critical theory Brookfield argues that a critical theory of adult learning must focus on understanding how adults learn to challenge ideology contest hegemony unmask power overcome alienation learn liberation reclaim reason and practice democracy These tasks form the focus of successive chapters while later chapters review the central contentions of critical theory through the contemporary lenses of race and gender The final chapter reviews adult educational practices and looks at what it means to teach critically **Adult Education Quarterly** ,1999 *American Book Publishing Record* ,1999 *Boletin Internacional de Bibliografia Sobre Educacion* ,2000 Cumulated Index to the Books ,1999 **Subject Guide to Books in Print** ,2001 **Deutsche Nationalbibliographie und Bibliographie der im Ausland erschienenen deutschsprachigen Veröffentlichungen** ,1996 **Adult Education**

and the Postmodern Challenge Ian Bryant, Rennie Johnston, Robin Usher, 2004-08-02 This book offers some suggestions as to ways forward from this dilemma Drawing on the new intellectual frameworks of critical pedagogy feminism and postmodernism and their impact upon educational theory practice and research the book focuses on the changing contexts of adult education By building on the notion of going beyond the limits of certain current adult education orthodoxies the authors try to provide alternatives for practice The final three chapters deal with research focusing on a critical macro analysis of mainstream paradigms a review of alternative approaches and a more micro analysis centering on the role of the socially located self in the research process

Radicalizing Learning Stephen D. Brookfield, John D. Holst, 2010-10-19 Radicalizing Learning calls for a total rethinking of what the field of adult education stands for and how adult educators should assess their effectiveness Arguing that major changes in society are needed to create a more just world the authors set out to show how educators can help learners envision and enact this radical transformation Specifically the book explores the areas of adult learning training teaching facilitation program development and research Each chapter provides a guide to the different paradigms and perspectives that prevail across the field of theory and practice The authors then tie all of the themes into how adult learning for participatory democracy works in a diverse society

The Learning Society in a Postmodern World Kenneth Wain, 2004 Lifelong learning has become a key concern as the focus of educational policy has shifted from mass schooling toward the learning society The shift started in the mid 1960s and early 1970s under the impetus of a group of writers and adult educators gravitating around UNESCO with a humanist philosophy and a leftist agenda The vocabulary of that movement was appropriated in the 1990s by other interests with a very different performativist agenda emphasizing effectiveness and economic outcomes This change of interest described in the book has signified the death of education The Learning Society in a Postmodern World explores different theoretical resources to respond to this situation mainly those that propose some restoration of an educated public or to the contrary individual self creation and uses the works of a broad range of philosophers and thinkers notably MacIntyre Habermas Foucault Derrida Rorty and Baudrillard In addition it raises important questions about postmodern and poststructuralist responses to education in the postmodern world Its comprehensiveness and historical background make it an essential textbook for theoretical courses in lifelong learning and in educational theory in general A broad range of interests and subject matter make it important reading for educators policy specialists media specialists researchers on the subject of lifelong learning and on the relation between education and the postmodern world political theorists philosophers and philosophers of education

Adult Learning, Critical Intelligence and Social Change National Institute of Adult Continuing Education (England and Wales), 1995 What lies beyond the current preoccupation with education and its relationship to economic growth Has the idea of community engagement in the mixed economy of welfare through a radical critical form of participative learning disappeared or is it re emerging in a different form Adult Learning Critical Intelligence and Social

Change offers a wide range of perspectives on these and other issues which have emerged since the 1980s In the last 15 years adult education has been subjected to restructuring around the promotion of market forces moving away from the agenda of education for transformation towards a narrower agenda of meeting vocational needs In the process it has become demonstrably less neutral and more overtly controversial more vital than ever in providing essential skills and knowledge and in developing alternative visions for democratic social change This book reviews the context of these developments and focuses on contemporary debates in workplace and community based adult education and the impact of NVQs competence based approaches and APL on women and ethnic minority communities Individual essays illustrate critical and dynamic approaches to adult learning providing examples of commitment and progressive perspectives in practice in Britain and beyond The book opens with a critical review of the context for these changes and of the theoretical debates which attempt to analyse and explain them The chapters which follow offer specific challenges to postmodernism in relation to adult learning and focus more generally on critical debates around culture and theory Developments in trade union education women s education and vocational education are considered in depth Both as an expert overview of developments since 1980 and as a source of inspiration for a more progressive agenda this collection will appeal to students and practitioners in all forms of adult education

Adult Education as Theory, Practice, and Research Robin Usher,Ian Bryant,1989 Examines the reasons for the lack of growth in adult education as a field of practice and puts forward more productive ways of considering the relationships between theory research and practice
