

THE DISCOVERY
of slowness

STEN NADOLNY

A novel by the author of The God of Impertinence

"Sir John Franklin is the embodied contrast to the frenetic agitation of the modern world. The discovery of slowness is the slowness of discovery."

—*The New York Review of Books*

Discovery Of Slowness

Sten Nadolny

Discovery Of Slowness:

The Discovery of Slowness Sten Nadolny, 1997-06-01 In *The Discovery of Slowness* German novelist Sten Nadolny recounts the life of the nineteenth century British explorer Sir John Franklin 1786 1847 The reader follows Franklin's development from awkward schoolboy and ridiculed teenager to expedition leader governor of Tasmania and icon of adventure Everyone with whom he came into contact sensed that he was a rare man one who was out of his time and who moved to a different grander beat That beat eventually led Franklin to sail once more on his final fateful voyage into the Arctic in search of the Northwest Passage *The Discovery of Slowness* is both a riveting account of a remarkable and varied life and a profound and thought provoking meditation on time **The discovery of slowness** Sten Nadolny, 1987 THE DISCOVERY OF SLOWNESS: A NOVEL. TRANS. BY RALPH FREEDMAN. Sten Nadolny, 1987 **Discovery of Slowness**

Ralph Freedman, 1997 Optics of Semiconductors and Their Nanostructures Heinz Kalt, Michael Hetterich, 2013-04-09 In recent years the field of semiconductor optics has been pushed to several extremes The size of semiconductor structures has shrunk to dimensions of a few nanometers the semiconductor light interaction is studied on timescales as fast as a few femtoseconds and transport properties on a length scale far below the wavelength of light have been revealed These advances were driven by rapid improvements in both semiconductor and optical technologies and were further facilitated by progress in the theoretical description of optical excitations in semiconductors This book written by leading experts in the field provides an up to date introduction to the optics of semiconductors and their nanostructures so as to help the reader understand these exciting new developments It also discusses recently established applications such as blue light emitters as well as the quest for future applications in areas such as spintronics quantum information processing and third generation solar cells **Downtime** Mark Goble, 2025-06-17 Slow motion has become perhaps the least special effect in film and media

a stylistic technique for showing violence dream sequences and flashbacks or other experiences outside ordinary time We see so much slow motion on our screens today that we can look past its history and forget how rare it was before the 1960s when films such as *The Wild Bunch* *Bonnie and Clyde* and *2001 A Space Odyssey* helped it explode in popularity at a moment of cultural change and social upheaval This ambitious book tells the story of slow motion tracing a broader fascination with the uneven speeds of modern life and our ability to comprehend them *Downtime* explores the history and aesthetics of slow motion from its origins in early film to its prominence today Mark Goble argues that the effect's sudden visibility after 1968 registers experience of modernity as a period of perpetual acceleration that somehow makes even the smallest intervals of time feel endless Ranging across literature art and cinema including novels by William Faulkner Don DeLillo and W G Sebald as well as Robert Smithson's *Spiral Jetty* and Julie Dash's *Daughters of the Dust* he describes how writers and filmmakers depict the velocities and durations of contemporary life Goble reveals the twentieth century and its aftermath as figured in slow motion rushing past and deliriously delayed everything going fast and slow at once *Downtime* is about time and its

technologies in an accelerated world that can advance only in slow motion **The Medical Times and Gazette** ,1877
Convegno celebrativo del centenario della nascita di Mauro Picone e di Leonida Tonelli (Roma, 6-9 maggio 1985). ,1905
Glazbene kulture na Jadranu u razdoblju klasicizma Vjera Katalinić,Stanislav Tuksar,2004 *California. Supreme Court. Records and Briefs* California (State)., Court of Appeal Case s C000008 **Scribner's Monthly, an Illustrated Magazine for the People** ,1890 **California. Court of Appeal (1st Appellate District). Records and Briefs** California (State)., The Progress of Music in Ireland Harry White,2005 This book collects a number of essays on the relationship between music cultural history and musicology in Ireland which taken together comprise a natural progression from the author s widely acclaimed monograph *The Keeper s Recital* 1998 The progress of music in Ireland contains essays on contemporary music and musical infrastructures in Ireland on Irish musical nationalism in the context of German and Czech traditions on the presence of music in the work of Brian Friel and Samuel Beckett on Joyce and music on university education and Irish musical education on the discourse of musicology in Ireland and on the work of Brian Boydell and Aloys Fleischmann as pioneers in Irish musical scholarship Medusian Politics Lutz P. Koepnick,1994 *God for a Secular Society* Jürgen Moltmann,1999 Based on lectures given in predominantly secular institutions Issues discussed include political theology liberation theology ecology and human rights globalism and individualism the market and human dignity
Modern Geography John Pinkerton,1807 **Olderr's Fiction Index** ,1987 **Irish University Review** ,1999 A journal of Irish studies The Beauty of Speed Or the Discovery of Slowness Bergmann,2016 **Archives of Philosophy, Psychology and Scientific Methods** ,1906
