Discrete and Continuous Methods in Applied Mathematics Jerold C. Mathews, Carl E. Langenhop, 1968 Discrete and Continuous Methods in Applied Mathematics George L. Nemhauser, 1966 **Power Distribution Planning Reference Book, Second Edition** H. Lee Willis, 2004-03-01 Providing more than twice the content of the original edition this new edition is the premier source on the selection development and provision of safe high quality and cost effective electric utility distribution systems and it promises vast improvements in system reliability and layout by spanning every aspect of system planning including load forecasting scheduling performance and economics Responding to the evolving needs of electric utilities Power Distribution Planning Reference Book presents an abundance of real world examples procedural and managerial issues and engineering and analytical methodologies that are crucial to efficient and enhanced system performance **Value Functions for Environmental Management** E. Beinart, 2013-04-18 Environmental decisions must satisfy a multitude of objectives and the matching of a plan policy or project to such objectives is a matter of both facts and value judgements Value Functions for Environmental Management provides a systematic approach to the structuring and measurement of value judgements showing how they drive the decision process and how to make them transparent and effective in support of complex decisions The value functions that the book describes provide a scheme for the exploration of human values and a tool for transforming them into an analytical model A clear statement can then be made of the degree to which a decision has achieved its objectives and how conflicting objectives may be addressed This does not mean that there is no role for human judgement in the process Complexity often coupled with large information gaps necessitates expert judgement but the values adopted by the experts are themselves capable of being structured and measured according to the value function methodology presented here even if the judgements themselves are qualitative and tentative Value models for expert panels are also presented The use of the methodology in practice is illustrated by examples The book contains an extensive subject index **Advances in Soft Computing - AFSS 2002** Nikhil R. Pal, Michio Sugeno, 2002-01-23 It is our great pleasure to welcome you all to the 2002 AFSS International Conference on Fuzzy Systems AFSS 2002 to be held in Calcutta the great City of Joy AFSS 2002 is the fth conference in the series initiated by the Asian Fuzzy Systems Society AFSS AFSS 2002 is jointly being organized by the Indian Statistical Institute ISI and Jadavpur University JU Like previous conferences in this series we assure AFSS 2002 will provide a forum for fruitful interaction and exchange of ideas between the participants from all over the globe The present conference covers all major facets of soft computing such as fuzzy logic neural networks genetic algorithms including both theories and applications We hope this meeting will be enjoyable academically and otherwise We are thankful to the members of the International Program Committee and the Area Chairs for extending their support in various forms to make a strong technical program Each submitted paper was reviewed by at least three referees and in some cases the revised versions were again checked by the

referees As a result of this tough screening process we could select only about 50% of the submitted papers We again express our sincere thanks to all referees for doing a great job We are happy to note that 19 different countries from all over the globe are represented by the authors thereby making it a truly international conference We are proud to have a list of distinguished speakers including Profs Z Pawlak J Bezdek D Dubois and T Yamakawa **The Shock and Vibration Digest** ,1992
