Disease Pain Sacrifice Toward A Psycho:

Disease, Pain, & Sacrifice David Bakan, 1968 How shall human suffering be conceptualized In this succinct deeply beautiful book David Bakan has drawn upon recent biological and psychiatric research as well as biblical sources in an effort to understand the very condition of human mortality Bakan has neither aspired to the abstraction of theological statements nor descended to a purely reductionist position He states I do not know what divinity is there outside the compass of man s humanity He is convinced however that human suffering is a paradox for consciousness is a precondition for suffering as well as its management and bodily disorder despite the traditional claims for immortality is biologically inherent in human growth

Freud and Freudians on Religion Donald Capps, 2001-01-01 This book presents selections from Freud s writings on religion and from the work of five more recent contributors to the psychoanalytic study of religion David Bakan Erik H Erikson Heinz Kohut Julia Kristeva and D W Winnicott It is the first collection of texts in the psychology of religion that is oriented more toward religious studies than toward the study of psychology In his introduction Donald Capps points out that psychoanalysis resembles religions in the way in which its founding documents Freud s own writings have been closely read have evoked interpretive battles and have been reassessed and reapplied in response to changing social and cultural circumstances He notes that just as Freud s writings on religion focus on the biblical text the majority of the authors included here do likewise showing how the Bible may be read psychoanalytically Both Freud and his successors says Capps also reflect the high value that the Christian culture of the West has placed on painting and sculpture revealing the importance of perception and imagination to the psychoanalytic study of religion Capps highlights the ways in which all the Freudians work intertextually with Freud s writings with the writings of other authors included in the book and with other writings of their own
