Disenchantment Of Art The Philosophy Of Walter Benjamin:

The Disenchantment of Art Rainer Rochlitz, 1995-04-12 Fifty years after his death Walter Benjamin remains one of the great cultural critics of this century Despite his renown however Benjamin's philosophical ideas remain elusive and often considered a disaggregated set of thoughts not meant to cohere This book provides a more systematic perspective on Benjamin laying claim to his status as a philosopher and situating his work in the context of its time Exploring Benjamin's theory of language spoken and unspoken Rainer Rochlitz shows how Benjamin reconceptualized traditional ideas of language art and history Offering an expansive assessment of a unique twentieth century thinker this volume provides an indispensable guide for readers of Benjamin's recently released collected works *Walter Benjamin and Art* Andrew Benjamin, 2005-02-01 Walter Benjamin's most famous and influential essay remains *The Work of Art in the Age of Mechanical Reproduction* Walter Benjamin and the Work of Art is the first book to provide a broad and dedicated analysis of this canonical work and its effect upon core contemporary concerns in the visual arts aesthetics and the history of philosophy The book is structured around three distinct areas the extension of Benjamin's work the question of historical connection the importance of the essay in the development of criticism of both the visual arts and literature Contributors to the volume include major Benjamin commentators whose work has very much defined the reception of the essay and leading philosophers historians and aestheticians whose approaches open up new areas of interest and relevance **Baudelaire's Bitter Metaphysics** Aaron Brice Cummings, 2024-09-12 Baudelaire's Bitter Metaphysics Anti Nihilist Readings by Fondane Benjamin and Sartre reconstructs a philosophical dialogue that might have been expected to take place between Benjamin Fondane Walter Benjamin and Jean Paul Sartre over their philosophical readings of Charles Baudelaire an exchange preempted by the untimely deaths of two of the interlocutors during the Nazi holocaust Why did three of Europe's sharpest minds respond to the terror of 1933-45 by writing about a long dead poet Aaron Brice Cummings argues that Fondane Benjamin and Sartre turned to the poet of nihilism's abyss because they recognized a fact of cultural history that remains relevant today until sometime in the 2080s the literary world will have to confront even if to deny the two century window forecast by Nietzsche as the age of cultural and existential nihilism Accordingly the author examines the bitter metaphysics latent in Baudelaire's motifs of the abyss clocks brutish streets and bored dandies In so doing this book confronts the nothingness which modern life encounters in the heart of art ethics ideality time memory history urban life and religion

The Routledge Companion to Aesthetics Berys Gaut, Dominic Lopes, 2013-04-17 The third edition of the acclaimed Routledge Companion to Aesthetics contains over sixty chapters written by leading international scholars covering all aspects of aesthetics This companion opens with an historical overview of aesthetics including entries on Plato Aristotle Kant Nietzsche Heidegger Adorno Benjamin Foucault Goodman and Wollheim The second part covers the central concepts and theories of aesthetics including the definitions of art taste the value of art beauty imagination fiction narrative metaphor and

pictorial representation Part three is devoted to issues and challenges in aesthetics including art and ethics art and religion creativity environmental aesthetics and feminist aesthetics The final part addresses the individual arts including music photography film videogames literature theater dance architecture and design With ten new entries and revisions and updated suggestions for further reading throughout The Routledge Companion to Aesthetics is essential for anyone interested in aesthetics art literature and visual studies *The Continental Aesthetics Reader* Clive Cazeaux, 2017-10-03 The Continental Aesthetics Reader brings together classic and contemporary writings on art and aesthetics from the major figures in continental thought The second edition is clearly divided into seven sections Nineteenth Century German Aesthetics Phenomenology and Hermeneutics Marxism and Critical Theory Excess and Affect Embodiment and Technology Poststructuralism and Postmodernism Aesthetic Ontologies Each section is clearly placed in its historical and philosophical context and each philosopher has an introduction by Clive Cazeaux An updated list of readings for this edition includes selections from Agamben Butler Guattari Nancy Virilio and Iek Suggestions for further reading are given and there is a glossary of over fifty key terms Ideal for introductory courses in aesthetics continental philosophy art and visual studies The Continental Aesthetics Reader provides a thorough introduction to some of the most influential writings on art and aesthetics from Kant and Hegel to Badiou and Ranci **An Apprehensive Aesthetic** Andrew McNamara, 2009 The book was awarded The Art Association of Australia and New Zealand Book Prize in 2010 Art continues to bemuse and confuse many people today Yet its critical analyses are saturated with daunting analyses of contemporary art's exhaustion its predictability or its absorption into global commercial culture In this book the author seeks to clarify this apprehensive perception of art He argues it is a consequence not only of confounding art works but also of the paradoxical impetus of a culture of modernity By positively reassessing the perplexing or apprehensive features of cultural modernity as well as of aesthetic inquiry this book redefines the ambitions of art in the wake of this legacy In the process it challenges many familiar approaches to art inquiry in order to offer a new understanding of the aesthetic social and cultural aspirations of art in our time *Gordon Matta-Clark? Conical Intersect* Peter Muir, 2017-07-05 In this in depth analysis Peter Muir argues that Gordon Matta Clark's *Conical Intersect* 1975 is emblematic of Henri Lefebvre's understanding of art's function in relation to urban space By engaging with Lefebvre's theory in conjunction with the perspectives of other writers such as Michel de Certeau Jacques Derrida and George Bataille the book elicits a story that presents the artwork's significance origins and legacies *Conical Intersect* is a multi media artwork which involves the intersections of architecture sculpture film and photography as well as being a three dimensional model that reflects aspects of urban art and architectural theory along with a number of cultural and historiographic discourses which are still present and active This book navigates these many complex narratives by using the central hole of *Conical Intersect* as its focal point this apparently vacuous circle around which the events documents and other historical or theoretical references surrounding Matta Clark's project are perpetually in circulation Thus *Conical*

Intersect is imagined as an insatiable absence around which discourses continually form dissipate and resolve Muir argues that Conical Intersect is much more than an artistic hole Due to its location at Plateau Beaubourg in Paris it is simultaneously an object of art and an instrument of social critique *Art Theory* Robert Williams,2009-03-09 Indispensable reading for both art lovers and students Art Theory 2nd Edition explores Western thought about art from ancient times to the post modern period Wide ranging and exceptionally balanced in its analysis Art History relates theory to the practice as well as to the intellectual and cultural historical currents of each period This new edition expands the original to include more indepth coverage of contemporary art Newly updated bibliography and suggestions for further reading Six chapters covering the major periods of Western art history Antiquity and the Middle Ages the early modern period Renaissance and Baroque the Enlightenment the nineteenth century early twentieth century modernism and postmodernism Geared to the needs of the general reader and beginning students *The Philosophical Review* ,1996 Critical Humanisms Martin Halliwell,Andy Mousley,2003 This distinctive reappraisal of humanism argues that humanist thought is a diverse tradition which cannot be reduced to current conceptions of it By considering humanism via the categories of Romantic Existential Dialogic Civic Spiritual Pagan Pragmatic and Technological Humanisms Halliwell and Mousley propose that the critical edge of humanist thought can be rescued from its popular view as intellectually redundant They also argue that because these humanisms contain within them anti humanist perspectives it is possible to counter the charge that humanism is based upon an unquestioned image of human nature The book focuses on the thought of twenty four mainly European and North American thinkers ranging historically from the Renaissance to postmodernism It discusses foundational writers some of whom have been claimed as anti humanists such as Marx Nietzsche Freud Dewey and Sartre as well as the contemporary thinkers Habermas Cixous Rorty Hall and Haraway to construct a series of provocative dialogues which suggest the ongoing relevance of humanism to issues of ethics art science selfhood gender citizenship and religion Given the range and originality of the book s approach Critical Humanisms will be an invaluable resource for students and researchers in the Humanities particularly English American studies cultural studies modern languages philosophy and sociology **HOW TO ACQUIRE BOOKS LISTED IN CURRENT CONTENTS** ,1996 **The Exiles of Marcel Duchamp** T. J. Demos,2007 Marcel Duchamp was a famous expatriate a wanderer living and working in Paris New York and Buenos Aires and escaping from them in turn But exile argues T J Demos in this innovative reading is more than a fact in Duchamp s biography Exile in the artist s own words a spirit of expatriation infuses Duchamp s entire artistic practice Indeed a profound sense of dislocation from geographical situation national identity and cultural conventions deeply informs the mobile objects and disjunctive spaces of Duchamp s readymades and experimental exhibition installations Duchamp s readymade constructions his installations for surrealist exhibitions in Paris and New York and his portable museum the suggestively named La bo i te en valise Demos writes all manifest define and exploit the terms of exile in multiple ways Created while the artist was living variously in New

York Buenos Aires and occupied France during the global catastrophes of war and fascism these works express the anguish of displacement and celebrate the freedom of geopolitical homelessness The portable museum a suitcase containing miniature reproductions of Duchamp s work for example represented a complex meditation both critical and joyful on modern art s tendency toward itinerancy whereas Duchamp s 1942 installation design entangling a New York gallery in a mile of string announced the dislocated status that many exiled surrealists wished to forget Demos connects Duchamp s condition of exile to forms of displacement within photographic practice and modern museum exhibitions theorized extensively at the time by Walter Benjamin Andr e Malraux and Frederick Kiesler He claims that in the period of fascism s elevation of the home as the site of national imagination Duchamp s antinational identity became a form of resistance just as his artistic practice represented a complex response to capitalism s increasing institutionalization and marketing of art Duchamp s exile writes Demos defines a new ethics of independent life in the modern age of nationalism and advanced capitalism offering a precursor to our own globalized world of nomadic subjects and dispersed experience *Poetry in Exile* Michael Murphy,2004 This is a study of the impact of exile on three distinct poetic voices from three distinct cultures Notions of identity are explored through the poetry of Auden Brodsky and Szirtes *Postmodern Currents* Margot Lovejoy,1997 *Postmodern Currents* Art and Artists in the Age of Electronic Media explores in detail the growing impact of video and computer technologies and of the Internet on aesthetic experience and examines the emerging role of the artist as social communicator It recounts the involvement of such artists as Jenny Holzer Nam June Paik Bill Viola Gary Hill and Laurie Anderson among others with electronic media and discusses the important economic social and aesthetic issues these new technologies imply [The Best Books for Academic Libraries: Religion and philosophy](#) ,2002 *Literature as Pure Mediality* Paul DeNicola,2009 DeNicola argues that Franz Kafka recognizes the inherent violence in any conceptual understanding of language and therefore conceives literary or poetic language as capable of an unjudging that deconstructs any previously judged version of the real **Mit Den Ohren Denken** Mirko Manfred Hall,2006 **On the Outlook** Thomas Crombez,Katrien Vloeberghs,2007 This volume explores the traditional and contemporary modes and stakes of messianic thinking in its close interaction with both previous and actual political contexts and theoretical discourses In the past decades philosophers and political thinkers repeatedly drew upon the millennial tradition of messianic thinking in their efforts to come to terms with the injustices of the present Their conceptions of messianism build upon and revise modify or radicalize politico theological theories developed in the period between the two world wars by thinkers who in the face of doom and destruction reverted to ancient Judeo Christian visions of redemption The essays address the ways in which today TM s messianic thinking relates to its historical Jewish and Christian origins and how it deals with the legacy of its early twentieth century precursors such as Walter Benjamin Franz Rosenzweig Ernst Bloch Gerschom Scholem and Theodor W Adorno Historically attitudes toward messianism interact with the political and historical conditions as well as with the

prevailing theoretical and philosophical discourses of their times Cross fertilization between messianism politics and philosophy also inform recent conceptualizations of history and time language and the law in the writings of Emmanuel Levinas Jacques Derrida and most recently Giorgio Agamben The analysis of messianism in contemporary discourse encourages reflections on the following core questions How does messianism figure in modern and contemporary philosophy How does it relate to today TM s state of affairs in the juridical political and social realm Is it still primarily a Jewish concern and how has it interacted with other religious and political traditions How does the impact of Jewish messianism on modern philosophy compare with and relate to other influences of Jewish thought such as the legalistic tradition The contributors to this volume shed light on as divergent aspects of messianism as its socio historical embeddedness its discontinuous historiography its manifestations in literature and the arts and its complex relation to human agency
