Disenchantment Of Political Development Epistemes Cultures And Policies:

The Disenchantment of Political Development Nasr M. Arif,2002-11-06 The Disenchantment of Political Development is a serious study of the most problematic issues of development Author Nasr M Arif examines theories of political and social development that have been presented to the non Western world as scientific theories which represent the only valid paradigm Through a multi method approach the epistemological cultural socio political and economical dimensions of development are deeply analyzed **The Development Decade?** Vishnu Padayachee,2006 Locating the South African challenges within a broader international perspective this study covers all the major economic growth challenges from employment industrial policy urban governance and the informal economy to the social challenges of poverty inequality HIV AIDS and health policy The key development debates of the post apartheid era are outlined and the success of a decade of reform and experimentation is considered by a wide range of international development specialists including American economists Gil Hart and Michael Carter British economist Jonathan Michie and South African Scholars Alan Whitesides Julian May and Mike Morris *Cross-Cultural Perspectives on Policy and Practice* Jennifer Lavia,Michele Moore,2009-09-10 This book provides a space in which struggles for indigenous knowledge within communities are articulated valued heard and responded to The volume takes change as its focus yet acknowledges that the origins and significance of change are frequently found to be unsettling Contributors explore different understandings of change that forge sustainable inclusive and just communities and examine issues related to citizenship resistance peacemaking critical literacies and second chance opportunities The authors seek to promote advocacy of change that recognises the importance of an informed engagement with cross cultural issues in order to foreground those missing perspectives that are often marginalised silenced ignored or denied All contributors are concerned with how the process of change can bridge the gap between social justice and exclusion and develop critical understandings of the implications of changing policy and practice for those within and working with the educational organisations and communities **American Book Publishing Record** ,2003 **Forthcoming Books** Rose Arny,2003 **Books in Print Supplement** ,2002 **Handbook of Policy Advice** Michael Howlett,Ishani Mukherjee,2025-09-10 This timely Handbook examines the background organization and evolution of policy advice and expertise in contemporary government Chapters in the book set out and critically re evaluate conventional assumptions about the role of policy advisors and advice in policy making in an era when increasing new technologies political polarization and contestation have mounted challenges to traditional sources of policy ideas and influence **Crisis Narratives in International Law** Makane Moïse Mbengue,Jean D'Aspremont,2021-11-15 This volume offers a series of short and highly self reflective essays by leading international lawyers on the relation between international law and crises It particularly shows that international law shapes the crises that it addresses as much as it is shaped by them It critically evaluates the modes of intervention of international law in the problems of the world Together these essays provide a unique

stocktaking about the role limits and potential of international law as well as the worlds that are imagined through international lawyers vocabularies   *Deconstructing India-Pakistan Relations* Sanjeev Kumar H. M.,2023-12-14 This book examines the complex dynamics of India Pakistan relations by situating the same in the postcolonial setting of the subcontinent In pursuit of this the book analyses the impact of the linkages between the postcolonial processes of state making and the structuring of political communities upon the evolution of the probl matique of state security in South Asia For the purpose of undertaking this task the author deconstructs the countries colonial history with an aim to mapp its impact on the making of the foreign policy of Pakistan Drawing primarily from colonial discourse theory and historical sociology the book links the trajectory of Pakistan s international politics to its domestic politics and weak state inheritances By doing this it offers a stimulating treatment of the history of the country s troubled postcolonial relations with India This has been done in the book by presenting the modes by which the religio military and politico bureaucratic classes that constitute the power elite in Pakistan tended to have moulded an India centred State security probl matique This book will be of interest to researchers studying South Asian security India Pakistan relations and the defence and foreign policy of Pakistan   Business Meets the Humanities Martina Mahnke,Mikka Nielsen,Matilde Petersen,Lise Tjørring,2022-11-17 Within the last decades universities are increasingly expected and measured by their direct engagement in collaborations beyond academia Exploring the potential that lies in university business collaborations the present anthology attends to the dilemmas dualities and challenges that follow such collaborations especially in the academic traditions of the social sciences and humanities Each contribution investigates how the human perspective a perspective that highlights how complex knowledge and a deep understanding of human everyday life enriches companies processes products services and ideas Some chapters focus on collaborations between researchers and business practitioners others focus on teaching examples involving students in the collaborative work with businesses and organisations and again others contribute with more theoretical considerations By gathering hands on experiences the book provides readers with inspirations reflections on and insights into university business collaborations This book therefore is intended for researchers within the humanities and social sciences who want to get a deeper understanding of the practice of such collaborations The Open Access version of this book available at www taylorfrancis com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license   **German Cosmopolitan Social Thought and the Idea of the West** Austin Harrington,2016-05-19 Harrington draws on neglected sources in early twentieth century German social thought to address core questions in current social science   *Constitutions of Value* Isabel Feichtner,Geoff Gordon,2023-01-19 Gathering an interdisciplinary range of cutting edge scholars this book addresses legal constitutions of value Global value production and transnational value practices that rely on exploitation and extraction have left us with toxic commons and a damaged planet Against this situation the book examines law s fundamental role in institutions of value production and valuation Utilizing

pathbreaking theoretical approaches it problematizes mainstream efforts to redeem institutions of value production by recoupling them with progressive values Aiming beyond radical critique the book opens up the possibility of imagining and enacting new and different value practices This wide ranging and accessible book will appeal to international lawyers socio legal scholars those working at the intersections of law and economy and others in politics economics environmental studies and elsewhere who are concerned with rethinking our current ideas of what has value what does not and whether and how value may be revalued The Open Access version of this book available at www taylorfrancis com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license *Applied Research and Practice from the Next Generation* ,2007 Sociological Abstracts ,1996 United States Political Science Documents ,1967 **Social History of Science in Colonial India** S. Irfan Habib,Zaheer Baber,2007 Can science be seen as the flag bearer of the civilizing mission dispelling the darkness of centuries of superstition Did the installation of new technological systems displace ancient primitive techniques Rejecting the simplistic notion of transmission of science and technology this reader argues for a variety of perspectives Part of the prestigious Themes in Indian History series it provides an excellent introduction to the world of science and technology in colonial India Departing from the standard practice of seeing science as a cultural universal Social History of Science emphasizes the need for redrawing boundaries long taken for granted It investigates how modern science considered as a pristine Western cultural import was reconstituted in the encounter with other ways of knowing and acting on the world Bringing together some of the finest writings even rare on the subject this volume highlights the multiplicity of historiogaphic positions on colonial science and the changing landscapes for the study of science in South Asia The contributors approach issues related to science and colonialism from a variety of scientific disciplines They engage with the drift produced by the entanglement of science and values and the complicity of the scientific project in that of imperialism **Economic and Political Weekly** ,1999-04 *Science Off the Pedestal* Daryl E. Chubin,Ellen W. Chu,1989 **Serendipitous and Strategic Innovation** Shantha Liyanage,Jan Annerstedt,2006 Innovation is a time consuming process that involves invention as a beginning and a marketable service or product as an end This work examines the technology innovation process and displays its critical links with organizational functions The Philosopher's Index ,2008 Vols for 1969 include a section of abstracts
