Discipline: The Brazelton Way, Second Edition T. Berry Brazelton, Joshua Sparrow, 2015-07-14 World renowned pediatricians T Berry Brazelton and Joshua Sparrow see discipline as a parent's gift to a child. By following the doctors' unique approach which emphasizes teaching over punishment, parents will find effective solutions for common behavior problems. Not only will parents feel more confident and at ease, but they will also experience the joy of raising children who learn to discipline themselves. The vital advice covers six stages of discipline, the power of consequences, ways to encourage moral development and empathy, dealing with misbehavior from biting and fighting to cheating, lying, and using foul language, and special disciplinary challenges including academic pressure, illness, and digital technology. Moral Politics George Lakoff, 2016-09-05 An updated third edition of the modern classic that applies cognitive science to the world of politics to explain how our unconscious views shape our votes When Moral Politics was first published it redefined how Americans think and talk about politics through the lens of cognitive political psychology Today George Lakoff s classic text has become all the more relevant as liberals and conservatives have come to hold even more vigorously opposed views of the world with the underlying assumptions of their respective worldviews at the level of basic morality Even more so than when Lakoff wrote liberals and conservatives simply have very different deeply held beliefs about what is right and wrong Lakoff reveals radically different but remarkably consistent conceptions of morality on both the left and right Moral worldviews like most deep ways of understanding the world are unconscious part of our hard wired brain circuitry When confronted with facts that don t fit our moral worldview our brains work automatically and unconsciously to ignore or reject these facts and it takes extraordinary openness and awareness of this phenomenon to pay critical attention to the countless facts we re presented with each day For this edition Lakoff has added a new preface and afterword extending his observations to various ideological conflicts since the book s original publication from the Affordable Care Act to the Iraq and Afghanistan wars the 2008 financial crisis and the effects of global warming One might have hoped such massive changes and challenges would bring people together but the reverse has actually happened the divide between liberals and conservatives has become stronger and more virulent To have any hope of bringing mutual respect to the current social and political divide we need to

clearly understand the problem and make it part of our contemporary public discourse Moral Politics offers a much needed wake up call to both the left and the right An intelligent take on the way politics is conducted in America Publishers Weekly That conservatives and liberals see the world differently comes as no news to most but Lakoff s look into just why that should be so makes for interesting reading Kirkus Reviews **Successful Parenting** Jessica Inman,2006 Successful Parenting is

an excellent primer on the most important characteristics of parents who raise healthy and happy children Beginning with the biggest fears that parents report the books deals with dynamics of what it takes to understand your child at the various ages of life the 4 things all children need no matter what their age the gift of consistency the commitment of time the blessing of spiritual nurture establishing traditions healthy boundaries at the various ages dealing with difficulties educational choices teaching life skills that lead toward independence and more Zero to Three ,2002 Parenting

Experts Jane Rankin,2005-10-30 Examines the advice of five parenting experts and compares their theories with the findings of hundreds of empirical studies on children focusing on major parenting problems such as persistent infant crying potty training early day care discipline substance abuse and the influence of television and the Internet **Every Teacher's**
