The Globalisation of Addiction Bruce K. Alexander, 2008 The Globalisation of Addiction presents a radical rethink about the nature of addiction Scientific medicine has failed when it comes to addiction There are no reliable methods to cure it prevent it or take the pain out of it There is no durable consensus on what addiction is what causes it or what should be done about it Meanwhile it continues to increase around the world This book argues that the cause of this failure to control addiction is that the conventional wisdom of the 19th and 20th centuries focused too single mindedly on the afflicted individual addict Although addiction obviously manifests itself in individual cases its prevalence differs dramatically between societies For example it can be quite rare in a society for centuries and then become common when a tribal culture is destroyed or a highly developed civilization collapses When addiction becomes commonplace in a society people become addicted not only to alcohol and drugs but to a thousand other destructive pursuits money power dysfunctional relationships or video games A social perspective on addiction does not deny individual differences in

vulnerability to addiction but it removes them from the foreground of attention because social determinants are more powerful This book shows that the social circumstances that spread addiction in a conquered tribe or a falling civilisation are also built into today's globalizing free market society A free market society is magnificently productive but it subjects people to irresistible pressures towards individualism and competition tearing rich and poor alike from the close social and spiritual ties that normally constitute human life People adapt to their dislocation by finding the best substitutes for a sustaining social and spiritual life that they can and addiction serves this function all too well The book argues that the most effective response to a growing addiction problem is a social and political one rather than an individual one Such a solution would not put the doctors psychologists social workers policemen and priests out of work but it would incorporate their practices in a larger social project The project is to reshape society with enough force and imagination to enable people to find social integration and meaning in everyday life Then great numbers of them would not need to fill their inner void with addictions

The Battersea Park Road to Paradise Isabel Losada Author,2013-01-01 In her bestseller *The Battersea Park Road to Enlightenment* Isabel Losada set out with a modest aim to be absurdly happy every day But a few years down the road she's stuck in a pothole No job not good No man very not good Nothing has turned out as she'd intended There's only one way to get out of the hole throw out the ideas that landed her there and start over So using the ancient Chinese tradition of the five elements of life Metal Fire Wood Water Earth Isabel breaks her own life down to its essentials to explore five areas of inner and outer change She calls in a feng shui consultant to discover that her bedroom decor is draining the father whatever that means takes a motivational workshop to experience the power of doing turns a silent meditation retreat into an exercise in unrelenting being sits at the feet of a Brixton guru to examine the nature of mind and undertakes a shamanic ritual in the Amazon to part company with her own mind completely As rich as the book is in the particulars of a life hilariously lived it's also universal readers can see themselves in Isabel's experience and look at their lives with new eyes **Buddhists in**
