Identity, Oppression, and Diversity in Archaeology Laura E. Heath-Stout, 2024-10-31 *Identity Oppression and Diversity in Archaeology* documents how racism classism sexism heterosexism and ableism affect the demographics of archaeology and discusses how knowledge that archaeologists produce is shaped by the discipline's demographic homogeneity Previous research has shown that like many academic fields archaeology is numerically dominated by straight white cisgender people and those in positions of authority are predominantly men This book examines how and why those demographic trends persist It also elucidates how individual archaeologists' social identities shape the research they conduct and therefore how our demographics affect and limit our knowledge production on a disciplinary scale It explains how through unflinching reflection proactive policymaking and sincere community building we can build a diverse and inclusive discipline This book will appeal to archaeologists who have an interest in diversity and inclusion within the

discipline as well as scholars in other disciplines who are engaged in research on diversity in academia Archaeology Versus Metal Detecting Peter G. Spackman, 2024-11-30 Examines the contentious relationship between archaeology and metal detecting revealing historical tensions and evolving practices This book offers a no holds barred insight into the often passionate sometimes controversial subject of tension and mistrust between the worlds of archaeology and metal detecting with the intent of shedding new light upon and bringing into the open some of the working practices procedures and thoughts which have fuelled an ill wind that flurries through levels of archaeological academia Beginning in the mists of history the author explores the birth of archaeological investigation from a Kings search the grave robbers through the antiquarian collectors museum artifact collections through to a profession which appears these days to rely upon the construction industry and its commercialism for survival Integrating various sources of information to highlight analytical information as well cultural social and economic intervention to form an unbiased argument The later appearance of metal detecting as a hobby which fired discontent distrust and deliberate efforts to either govern or ban the hobby This distrust is echoed by the author s extensive research which uncovered a deep set denial of the use by archaeologists of an innovative invention which has become an essential tool for artifact recovery the metal detector This hobby also listed as a sport boasts a practitioner membership of over thirty five thousand in the UK alone the history of which is covered in depth from the development of electro magnetism leading to an ever increasing number of inventions including machines for the detection of explosive devices which morphed into the metal detector as we know it today **Archaeology** Robert J. Sharer, Wendy Ashmore, 1993 This introductory text surveys the techniques methods and theoretical frameworks of contemporary archaeology Coverage of method and theory resides in the context of an ideal research plan to explain what archaeologists do how they conduct research and how they use the results to construct our past Integration of traditional and recent innovative approaches to archaeology provides a balanced scientific and humanistic perspective **The Archaeology Handbook** Bill McMillon, 1991-08-19 Written expressly for amateur archaeologists and archaeological volunteers to help them discover how they can become part of this increasingly popular field Covers subjects
