Discovery To Modernism:

Modernist Radicalism and its Aftermath Stephen Crook, 2012-10-12 Modernist Radicalism and its Aftermath investigates the ways in which Marx Durkheim Althusser and Habermas are all drawn towards foundationalism and offers a framework for the analysis of foundationalism in social theory

Border Modernism Christopher Schedler, 2013-12-16 Reorienting the field of American literary modernism Christopher Schedler defines an intercultural form of representation termed border modernism that challenges the aesthetic hegemony of metropolitan high modernism In this study Schedler compares the works of European and Anglo American modernists with the works of Mexican Native American and Chicano writers who engaged with modernist theories and practices In the process he uncovers a unique intercultural aesthetic produced in the borderlands of the United States and Mexico aimed at modernizing the native literary traditions of the Americas Addressing issues of migration cultural identity and ethnography Border Modernism is a major contribution to current debates over the origins and development of American literary modernism and a new model for transnational and intercultural reconstructions of American literary history

A Catechism of Modernism J. B. Lemius, 1908

Charm in Literature from Classical to Modernism Richard Beckman, 2019-09-16 Charm in Literature from Classical to Modernism Charmed Life discusses charm as both an emotional and aesthetic phenomenon Beginning with the first appearance of literary charm in the Sirens episode of the Odyssey Richard Beckman traces charm throughout canonical literature examining the metamorphoses of charm through the millennia The book examines the works of Chaucer Spenser Shakespeare Milton Pope Wordsworth Coleridge Proust Joyce Mann and others considering the multiplicity of ways charm is defined depicted and utilized by authors Positioning these poems dramas and novels as case studies Beckman reveals the mercurial yet enduring connotations of charm

Gay Artists in Modern American Culture Michael S. Sherry, 2007-09-10 Today it is widely recognized that gay men played a prominent role in defining the culture of mid twentieth century America with such icons as Tennessee Williams Edward Albee Aaron Copland Samuel Barber Montgomery Clift and Rock Hudson defining much of what seemed distinctly American on the stage and screen Even though few gay artists were out their sexuality caused significant anxiety during a time of rampant antihomosexual attitudes Michael Sherry offers a sophisticated analysis of the tension between the nation's simultaneous dependence on and fear of the cultural influence of gay artists Sherry places conspiracy theories about the homosexual international taking control and debasing American culture within the paranoia of the time that included anticommunism anti-Semitism and racism Gay artists he argues helped shape a lyrical often nationalist version of American modernism that served the nation's ambitions to create a cultural empire and win the Cold War Their success made them valuable to the country's cultural empire but also exposed them to rising antigay sentiment voiced even at the highest levels

of power for example by President Richard Nixon Only late in the twentieth century Sherry concludes did suspicion slowly give way to an uneasy accommodation of gay artists place in American life **The Way of Modernism & Other Essays** James Franklin Bethune-Baker,1927 **Fundamentalism Versus Modernism** Eldred Cornelius Vanderlaan,1925

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1965 Includes Part 1 Number 2 Books and Pamphlets Including Serials and Contributions to Periodicals July December **Cezanne and Modernism** Joyce Medina,1995-01-25 This book explores the contemporary modification of traditional relations among the arts Interpreting Cezanne as a founder of Modernism it focuses on an aesthetics of the image with roots in Bergson Heidegger and Merleau Ponty of equivalent value across the arts and in literature The author argues that Cezanne's transformation of traditional pictorial images and invention of radically new types of images resulted in the replacement of the mimetic motivation of the pictorial sign by symbolist plastic contemplative and visionary motivations These yielded four corresponding types of images all of which can be generally found together in all the great Modernist masters After surveying the transformation of the image in the psychological theories of the nineteenth century this investigation focuses on the Bergsonian philosophy of the image as a hermeneutical parallel of Cezanne's pictorial theory and practice Included are original readings of the most important serial paintings of Cezanne including the Mont Ste Victoire the Bathers and the Cardplayers **Philosophy and Catholic Theology** Philip A. Egan,2017-06-15 This short book offers a survey of recent philosophy and how its different patterns of thought have influenced Catholic theologians Rooted in the questions raised by Vatican I and the directions pointed by Vatican II Philosophy and Catholic Theology shows how theology has developed over the past two centuries and how it builds on the foundations philosophy has laid since the Middle Ages and the crises of the Reformation and the Enlightenment The issue of the relationship between faith and reason so acutely raised in those periods cannot be addressed without some understanding of the sciences that examine those two fields reason is the province of philosophy and faith is the realm of theology Once we have a grasp of philosophy and its questions we are in a better position to understand theology When we have a clear picture of both we can see how theology has built on and been influenced by philosophy And at that point we can begin to see how reason informs faith and how the two work together to yield knowledge of life's most profound realities Philip A Egan is a priest of the Diocese of Shrewsbury England He completed his doctoral studies at the University of Birmingham and specializes in the thought of John Henry Cardinal Newman and Bernard Lonergan SJ Until recently he was the dean of studies and professor of foundational theology at St Mary's College Oscott Ernest Hemingway Jörg Vogelmann,2008 Seminar paper from the year 2004 in the subject American Studies Literature grade 2.0 University of Stuttgart Institut für Literaturwissenschaft Anglistik Amerikanistik course Literary Studies G2 Seminar The American Short Story 11 entries in the bibliography language English abstract The Short Happy Life of Francis Macomber is among Ernest Hemingway's most impressive short stories His famous Iceberg Theory he thereby meant that in his texts only

a short part of the overall content is actually written down the rest of it stands between the lines has often caused confusion in reading his short stories and his omissions have tended to obscure their thematic implications The Short Happy Life of Francis Macomber however is embarrassing by its riches The exciting story is made up of manifold topics being key themes of the literary period of modernism The main theme of the story the self discovery of Francis Macomber correlates with modernist questions like What am I in it What s my function in the universe What are the limits of knowledge What is real Another topic of modernism is the breaking up of traditional values such as the development of a new relationship between man and woman that is again a central theme in Hemingway s text Thus it becomes clear that the topics in the story are also linked to the time the author has lived in The New Republic ,1924 Christianity and Modern Culture Charles Gray Shaw,1906 **The Mind of Modernism** Mark S. Micale,2004 This vanguard collection of original and in depth essays explores the intricate interplay of the aesthetic and psychological domains during the late nineteenth and early twentieth centuries and considers the reasons why a common Modernist project took shape when and in the circumstances that it did These changes occurred precisely when the distinctively modern disciplines of psychology psychiatry and psychoanalysis established their scientific foundations and achieved the forms in which we largely know them today This volume examines the dense web of connections joining the aesthetic and psychological realms in the modern era charting historically the emergence of the ongoing modern discussion surrounding such issues as identity formation sexuality and the unconscious The contributors form a distinguished and diversified group of scholars who write about a wide range of cultural fields including philosophy the novel and poetry drama dance film and photography as well as medicine psychology and the occult sciences **The Chicago Theological Seminary Register** Chicago Theological Seminary,1928 Alumni directory issue 1859 1951 v 44 no 4 v 45 no 1 **Relics of Iconoclasm, Modernism, Shi Zhecun, and Shanghai's Margins** Stephen William Schaefer,2000 The Faith of Modernism Shailer Mathews,1924
